

Memorandum January 10, 2018

This agenda is subject to revision up to 72 hours prior to the meeting.

To: All Members, Transportation Policy Board **From:** Kevin Wolff, Chair and Sid Martinez, Director

Subject: Transportation Policy Board Meeting Notice and Agenda

The next meeting of the MPO Transportation Policy Board is scheduled for Monday, January 22, 2018 at 1:30 p.m.

at the VIA Metro Center Community Room located at 1021 San Pedro.

The following agenda items will be discussed and action will be taken as appropriate.

Items may be taken out of the order shown.

Citizens to be Heard: Speakers will be allowed up to three (3) minutes each to address the Transportation Policy Board on any <u>one</u> specific agenda item. While speakers who have signed up may donate their time to another speaker, the maximum time allowed for any individual speaker will be nine (9) minutes. Speakers who wish to address the Board on multiple items or on items not listed on the agenda must do so under Citizens to be Heard. All speakers must sign the register and state their names and any organizations they represent.

Agenda:

- 1. Roll Call
- 2. Director's Report MPO (Martinez)
 - a. Update on the Capital-Alamo Connections Study
 - b. The MPO will begin holding a series of public meetings and online input in mid to late February in support of the development of the FY 2019-2022 Transportation Improvement Program
 - c. The February 2018 TPB meeting may be cancelled
 - d. The MPO Office will be closed on Monday, February 19, 2018 in observance of Presidents' Day
- Citizens to be Heard

MPO meetings are accessible to persons with disabilities. To arrange for special assistance or an interpreter, please call 210-227-8651 or TDD 1-800-735-2989 (Relay Texas) at least five working days in advance.

Las reuniones son accesibles a personas con discapacidad. Si usted necesita asistencia especial o un intérprete, llame al (210) 227-8651 o al TDD 1-800-662-4954 (Relay Texas) con cinco días hábiles de anticipación.

Please provide any written comments on any agenda items within three days prior to the meeting, to the MPO at:

825 South Saint Mary's Street • San Antonio, Texas 78205

 <u>Consent Agenda</u>: All items under the Consent Agenda are acted upon collectively unless opposition is presented, in which case, the contested item will be considered, discussed and appropriate action taken separately.

- 4. **Approval** of the December 4, 2017 Meeting Minutes
- 5. **Action** on the Annual Disadvantaged Business Enterprise Report MPO (Martinez)
- 6. **Action** on Amendments to the FY 2018-2019 Unified Planning Work Program MPO (Geiger)
- 7. **Action** on Roadway and Transit Amendments to the Metropolitan Transportation Plan and the FY 2017-2020 Transportation Improvement Program MPO (Geiger)
- 8. **Action** on a Contract Amendment for Subtask 4.3 Travel Demand Model Updates MPO (Geiger)

Items for Individual Discussion and Appropriate Action:

- 9. **Action** on Performance Measures and Target Setting (Safety and Transit) MPO (Blazosky)
- 10. Status Report on the Development of the FY 2019-2022 Transportation Improvement Program MPO (Geiger)
- 11. Monthly Status Reports
 - a. Alamo Regional Mobility Authority (Renee Green)
 - b. Air Quality Issues (Diane Rath)
 - c. City of San Antonio (Mike Frisbie)
 - d. San Antonio Mobility Coalition (Vic Boyer)
 - e. Texas Department of Transportation (Mario Jorge)
 - f. VIA Metropolitan Transit (Jeff Arndt)
 - g. Others
- 12. Executive Session Pursuant to Chapter 551, Subchapter D, Texas Government Code

At any time during the meeting of the MPO Transportation Policy Board, the Board reserves the right to adjourn into executive Session at any time to discuss any of the matters listed on the posted agenda, as authorized by Texas Government Code Section 551.071 (consultation with attorney), Section 551.072 (deliberations about real property), Section 551.074 (personnel matters), and Section 551.086 (economic development)

Adjourn

MPO meetings are accessible to persons with disabilities. To arrange for special assistance or an interpreter, please call 210-227-8651 or TDD 1-800-735-2989 (Relay Texas) at least five working days in advance.

Las reuniones son accesibles a personas con discapacidad. Si usted necesita asistencia especial o un intérprete, llame al (210) 227-8651 o al TDD 1-800-662-4954 (Relay Texas) con cinco días hábiles de anticipación.

Please provide any written comments on any agenda items within three days prior to the meeting, to the MPO at:

825 South Saint Mary's Street • San Antonio, Texas 78205

Commissioner Wolff called the meeting to order at 1:30 p.m.

2. Director's Report

- a. STP-MM project submittals are due to the MPO on Monday, December 4, 2017
- b. The next Transportation Policy Board meeting is scheduled for Monday, January 22, 2018 at 1:30 p.m. at the VIA Metro Center located at 1021 San Pedro, San Antonio, Texas 78212
- c. The MPO office will be closed on Monday, December 25, 2017; and Monday, January 1 and Monday, January 15, 2018

3. Citizens to be Heard

There were none.

<u>Consent Agenda:</u> All items under the Consent Agenda are acted upon collectively unless opposition is presented, in which case, the contested item will be considered, discussed and appropriate action taken separately.

- 4. Approval of the October 23, 2017 Meeting Minutes
- 5. Action on Revisions to MPO Policies and Bylaws

Mayor Chris Riley moved and Judge Kutscher seconded the motion to approve the Consent Agenda. The motion was unanimously approved.

<u>Items for Individual Discussion and Appropriate Action:</u>

6. Presentation on the Outcomes of the Joint AAMPO/CAMPO Transportation Policy Board (Capital Alamo Connection Study)

For information and discussion only.

- 7. Discussion and Appropriate Action on Performance Measures and Target Setting
 - For information and discussion only.
- 8. Presentation of Amendments to the Metropolitan Transportation Plan and the FY 2017-2020 Transportation Improvement Program

For information and discussion only.

- 9. Monthly Status Reports
 - a. Alamo Regional Mobility Authority (Renee Green)
 - b. Air Quality Issues (Diane Rath)
 - c. City of San Antonio (Mike Frisbie)
 - d. San Antonio Mobility Coalition (Vic Boyer)
 - e. Texas Department of Transportation (Mario Jorge)
 - f. VIA Metropolitan Transit (Jeff Ardnt)
 - g. Others

For information and discussion only.

10. Discussion and Appropriate Action on Agenda Items for Upcoming Transportation Policy Board Meetings

This item was not considered.

11. Executive Session - Pursuant to Chapter 551, Subchapter D, Texas Government Code

This item was not considered.

There being no further business, the meeting was adjourned at 3:26 p.m.

Commissioner Kevin A. Wolff, Chair
Transportation Policy Board

5. Action on the Annual Disadvantaged Business Enterprise Report

Purpose

The purpose of this agenda item is to accept the Annual Disadvantaged Business Enterprise (DBE) report which documents participation in the MPO's consultant contracts.

Issue

In September 1989, the MPO Transportation Policy Board established a DBE goal of 25% for all consultant contracts.

In January 1998, this goal was reviewed and the MPO Director was given authorization to manage the MPO's DBE participation goal for individual contracts so that the overall DBE participation meets or exceeds 25%. It was also agreed that an annual update would be provided to the Transportation Policy Board.

In January 2003 it was agreed that the annual report will reflect a rolling five-year average.

As indicated on the attached FY 2017 report, the MPO's actual DBE participation for consultant contracts is 29%, 4 percentage points higher than the established goal.

Action Requested

A motion to accept the MPO's Disadvantaged Business Enterprise Report for FY 2017 as presented.

6. Action on Amendments to the FY 2018-2019 Unified Planning Work Program

Purpose

The purpose of this agenda item is to take action on amendments to the FY 2018-2019 Unified Planning Work Program.

Issue

In January, after the previous fiscal year has been closed out, the Unified Planning Work Program (UPWP) is amended to reflect carryover dollar amounts for individual subtasks, primarily planning studies being conducted by consultants.

Remaining budgets for five studies are being amended as shown below:

Subtask 2.3 Regional Transportation Attitude Survey III

Current Programmed Amount: \$150,000 Actual FY 2017 Carryover Amount: \$200,000

Subtask 3.4 Bike Share Master Plan

Current Programmed Amount: \$200,000 Actual FY 2017 Carryover Amount: \$225,000

Subtask 4.2 San Antonio-Bexar County Comprehensive Transportation Micro-Model

Current Programmed Amount: \$10,000 Actual FY 2017 Carryover Amount: \$21,476

Subtask 4.3 Travel Demand Model Updates

Current Programmed Amount: \$150,000 Actual FY 2017 Carryover Amount: \$192,454

Subtask 4.4 Regional Thoroughfare Plan Study

Current Programmed Amount: \$100,000 Actual FY 2017 Carryover Amount: \$131,773

The revised pages of the UPWP are attached. Revised information is underlined and designated with a footnote of '1'.

At their meeting on January 5, 2018, The Technical Advisory Committee unanimously recommended approval of this item.

Action Requested

A motion to approve the amendments to the FY 2018-2019 Unified Planning Work Program.

FY 2018 – 2019 UNIFIED PLANNING WORK PROGRAM

Adopted by the Transportation Policy Board: Amended by the Transportation Policy Board:

June 26, 2017 January 22, 2018

¹ Amended by the AAMPO Transportation Policy Board on January 22, 2018.

Subtask 2.3 Regional Transportation Attitude Survey III ¹

2.3.1 A consultant will undertake a regional transportation attitude study in the Alamo Area to gather statistically valid data with respect to public perceptions of regional transportation needs and issues and of preferences and priorities for future transportation system enhancements. While the focus will be on transportation, the survey will address other aspects of transportation planning including air quality, Edwards Aquifer protection, energy, safety, noise reduction, drainage, neighborhood protection, historical site preservation, protection of trees and other features of the natural landscape. This project is an update of the San Antonio – Bexar County Regional Transportation Attitude Study conducted in 1997-1998 and in 2006-2007. It is expected the questionnaire and data collection methodology will be similar to the original study to allow for direct comparisons of survey results.

Responsible Agency: Metropolitan Planning Organization (consultant) Funding Requirement: \$200,000 (estimated FY 2017 carryover) 1

Product(s): Technical Memoranda, Final Report, data file of survey records

E. Funding Summary ¹

Subtask	Subtask Name	Responsible Agency	TPF *	Other	Local	Total
2.1	Staff Support	MPO	\$782,000			\$782,000
2.2	VIA Origin and Destination Survey	VIA	\$200,000			\$200,000

TxDOT will apply transportation development credits sufficient to provide the match for FHWA PL-112 and FTA 5303 programs. As the credits reflect neither cash nor man-hours, they are not reflected in the funding tables.

* TPF is a combination of FHWA PL 112 and FTA 5303 funds.

¹ Amended by the AAMPO Transportation Policy Board on January 22, 2018.

Responsible Agency: Metropolitan Planning Organization

Funding Requirement: \$1,468,000 (\$716,000 budgeted for FY 2018 and \$752,000 budgeted for

FY 2019)

Subtask 3.3 Air Quality Planning

3.3.1 The purpose of this Subtask is to provide technical analysis for air quality planning in the region. At this time, the region has not yet been designated non-attainment for ozone. Once designated non-attainment, the MPO staff is responsible for transportation conformity as outlined under Tasks that will be performed by AACOG staff under this Subtask may include refining the photochemical model as new data becomes available; conducting photochemical model runs; conducting trend analyses; conducting model sensitivity tests; identifying, evaluating and recommending on-road control measures; and updating emissions inventories. This type of work for on-road sources has been invaluable and the region desires to continue investing in this analysis. Should the region require a photochemical model, AACOG desires to conduct the work with oversight by the Texas Commission on Environmental Quality (TCEQ). The work will be guided by local and State agencies and will be designed to meet Environmental Protection Agency defined standards for reliability and accuracy. Work performed under this subtask will not duplicate tasks being conducted by TCEQ nor the Texas A&M Transportation Institute. It must be noted that for air quality planning, the area outside the metropolitan area boundary affects the area within the metropolitan area boundary.

Responsible Agency: Alamo Area Council of Governments

Funding Requirement \$100,000 (\$50,000 budgeted for FY 2018 and \$50,000 budgeted for FY

2019)

Product(s): Technical Memoranda, Status Reports and Technical Report(s)

Subtask 3.4 Bike Share Master Plan Study ¹

3.4.1 This project is a third party contract for a consultant to evaluate and make recommendations on the existing Bike Share program within Bexar County and determine the feasibility of expanding the program to Comal, Guadalupe and Kendall counties. Within Bexar County the selected consultant will analyze existing data, review best practices, assess station locations, conduct public outreach, develop an implementation plan, and recommend program goals and performance measures. Within Comal, Guadalupe and Kendall counties, the selected consultant will assess the interest in developing a bike share program, identify potential origins and destinations for bike share usage, assess potential station locations, conduct public outreach, identify potential management structure(s), and identify potential capital and operating funding sources. The entire study process will be documented in a final report.

Responsible Agency: Metropolitan Planning Organization (consultant)

Funding Requirement: \$225,000 (estimated FY 2017 carryover)

Product(s): Data Sets/Layers, Technical Memoranda, Final Report

TxDOT will apply transportation development credits sufficient to provide the match for FHWA PL-112 and FTA 5303 programs. As the credits reflect neither cash nor man-hours, they are not reflected in the funding tables.

^{*} TPF is a combination of FHWA PL 112 and FTA 5303 funds.

 $^{^{\}rm 1}$ Amended by the AAMPO Transportation Policy Board on January 22, 2018.

Subtask 4.2 San Antonio – Bexar County Comprehensive Transportation Micro-Model ¹

4.2.1 This project is a third party contract for a consultant to assist with the calibration of the Alamo Area Metropolitan Planning Organization model to allow for a more detailed level of analysis to support city planning, policy development, and implementation to support localized and regional road networks. This study will provide a foundation for sub-regional transportation planning to assist local governments with implementation of the Metropolitan Transportation Plan and creation of local Transportation Plans, Policies, and Mobility Strategies.

Responsible Agency: Metropolitan Planning Organization/City of San Antonio (consultant)

Funding Requirement: \$21,476 (estimated FY 2017 carryover) ¹

Product(s): Data sets, technical memoranda, technical report

Subtask 4.3 Travel Demand Model Updates ¹

4.3.1 This project is a third party contract for a consultant to assist with modifications and updates to the San Antonio MultiModal Model (SAMM v 3.0) four step travel demand modeling process. The current travel demand model area covers all of Bexar, Comal, Guadalupe, Kendall and Wilson counties. The modeling region is expected to expand to include Atascosa and Medina counties. A new series of traffic counts, travel surveys and a transit on-board travel survey have been completed or are expected to be underway during the two-year timeframe of the UPWP. The MPO also plans for the selected consultant to provide assistance with roadway and transit network coding, peak hour modeling, explore integrating the AAMPO and CAMPO travel demand models, calibrating and validating the 2015 base year models. The consultant will also assist with specific testing such as high capacity transit improvements, bicycle facilities, and recommendations from the Regional Thoroughfare Plan Study.

Responsible Agency: Metropolitan Planning Organization (consultant)

Funding Requirement: \$192,454 (\$117,454 in estimated FY 2017 carryover and \$75,000 in FY

2018 funding)

Product(s): Data sets, technical memoranda, technical report

Subtask 4.4 Regional Thoroughfare Plan Study ¹

4.4.1 This project is a third party contract for a consultant to assist with consolidating current Major Thoroughfare Plans and making recommendations for a Regional Thoroughfare Plan. Each implementing agency will be responsible for adopting recommendations specific to their jurisdiction. The study area includes Atascosa, Bexar, Comal, Guadalupe, Kendall, Medina and Wilson counties. The selected consultant will document adopted plans, existing conditions and constraints. Based on analysis, the consultant will recommend a regional thoroughfare plan classification system that build off of the Strategic Multimodal Transportation Plan. It is noted that travel outside the MPO study area affects travel within the study area.

Responsible Agency: Metropolitan Planning Organization (consultant) Funding Requirement: \$131,773 (estimated FY 2017 carryover) 1

Product(s): Data sets, technical memoranda, final report

7. Action on Roadway and Transit Amendments to the Metropolitan Transportation Plan and the FY 2017-2020 Transportation Improvement Program

Purpose

The purpose of this agenda item is to take action on roadway and transit amendments to the Metropolitan Transportation Plan and the FY 2017-2020 Transportation Improvement Program.

Issue

The Texas Department of Transportation (TxDOT) amends the Statewide Transportation Improvement Program (STIP) on a quarterly basis. To meet our local process for amending the Transportation Improvement Program (TIP), amendments were reviewed in December with action scheduled for January 2018. In order to keep the Metropolitan Transportation Plan (MTP) and TIP consistent, amendments to the TIP will also need to be made to the MTP.

The roadway amendments include:

- moving up the US 281 North project from FY 2019 to FY 2018,
- updating the funding distribution for Prop1/Prop 7 projects to reflect both federal and state participation rather than 100% state funding as is currently shown in the TIP, and
- augmenting the scope of work for the City of San Antonio's ITS project (0915-12-601) to specify the upgrade of traffic signal controllers

Two projects in the MTP are being amended to move from out years (FY 2022 and FY 2029) to FY 2021 to reflect upcoming changes to TxDOT's Unified Transportation Program.

One transit project, #9831 is proposed to be added back into the TIP and MTP. This project was originally in the FY 2015-2018 TIP but did not get carried over into the FY 2017-2020 TIP when it was approved. VIA is now needing the project in the current TIP so they can request the funding in their federal grant application this year.

At their meeting on January 5, 2018, the Technical Advisory Committee unanimously recommended approval of this item.

Action Requested

A motion to approve the roadway and transit amendments to the Metropolitan Transportation Plan and the FY 2017-2020 Transportation Improvement Program.

8. Action on a Contract Amendment for Subtask 4.3 Travel Demand Model Updates

Purpose

The purpose of this agenda item is to take action on an amendment to the contract between the MPO and Cambridge Systematics, Inc. for Subtask 4.3 Travel Demand Model Updates.

Issue

In November 2015, the MPO issued the Notice to Proceed to Cambridge Systematics for the Travel Demand Model Updates Study with a budget of \$275,000. Tasks included assistance with roadway and transit network coding, updates to the mode choice model, refining the HOV and managed lane component of the model, outlining a plan for AAMPO/CAMPO travel demand model integration, and model calibration and validation for the updated travel demand model.

In June 2017, with action approving the FY 2018-2019 Unified Planning Work Program, an additional \$75,000 was added to this subtask for additional work. The additional work is outlined in Addendum A of the attached contract amendment.

At their meeting on January 5, 2018, the Technical Advisory Committee unanimously recommended approval of the scope of work.

Action Requested

A motion to approve the contract amendment for Subtask 4.3 Travel Demand Model Updates.

THE STATE OF TEXAS) (
COUNTY OF BEXAR) (AMENDMENT TO CONTRACT	
, 2018, Organization, hereinafter calle	by and betw ed the MPO, ntonio urbani:	ed into and executed this da veen the Alamo Area Metropolitan Plar which is the designated Metropolitan Plar zed area, and Cambridge Systematics,	nning nning

WITNESSETH

WHEREAS, pursuant to provisions of 23 USC 134, the Governor of the State of Texas has designated the Transportation Policy Board as the Metropolitan Planning Organization (MPO) for the San Antonio urbanized area and has executed an agreement to effectuate the designation; and,

WHEREAS, the MPO and the consultant entered into a contract effective November 16, 2015, which set out the terms and conditions for which the consultant has been designated responsible for by the Transportation Policy Board and would be reimbursed from Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Texas Department of Transportation (TxDOT), and local funds; and,

WHEREAS, the MPO and the consultant, with approval of the Transportation Policy Board, desires to amend the original Contract, effective November 16, 2015, and in accordance with the latest approved FY 2018-2019 Unified Planning Work Program as approved by the Transportation Policy Board, the State of Texas, acting by and through TxDOT, and the U.S. Department of Transportation (US DOT), acting by and through FHWA and FTA:

NOW, THEREFORE, the MPO and the consultant do hereby agree as follows:

PURPOSE

- 1.01 In addition to the original Contract scope of work, the consultant agrees to perform the additional tasks, affixed hereto as Addendum A.
- 1.02 The contract amendment amount is \$75,000 and the maximum allowable reimbursement amount for the Contract is \$350,000 as outlined in Addendum B which is affixed hereto.

ADDENDUM A

Alamo Area Metropolitan Planning Organization (AAMPO) Travel Demand Model Updates Scope of Work

Task 1 – Project Management

Updates to the AAMPO Model will require continued coordination between the Cambridge Systematics (CS) Team, AAMPO, TxDOT, and AAMPO member jurisdictions and planning partners. The project management strategy will focus on consistent communication to ensure a successful project. To ensure that resources for this project are allocated properly, CS will provide monthly progress reports along with each invoice. Additional phone or in-person meetings will be held with AAMPO to discuss progress and deliverables related to the additional tasks described below.

Task 2 – Model Refinements

This task includes any additional model refinements to the San Antonio Multi-Modal Model (SAMM) 4.0 model requested by AAMPO. Model refinements will be undertaken as agreed upon by AAMPO and the CS Team.

Task 3 –External Trips and Visitor Model Update

Under the FAST (Fixing America's Surface Transportation) Act, a tenth planning factor, "Enhance travel and tourism", has been added. There are many visitors to the San Antonio region and this type of travel has an impact on the travel demand model. The purpose of this task is to refine the non-home based special trip model such that it explicitly models visitor travel into and out of the region (i.e. modification of external trips) and visitor travel within the region. In addition, other external travel including truck travel and resident external travel (i.e. internal-to-external trips) will be adjusted to better match observed data. The model will include visitor travel throughout the region, but special attention will be paid to ensuring that specific locations including the airport, downtown, and external stations are appropriately modeled and well calibrated and validated.

Task 3.1 Obtain and Evaluate Data

The CS team will compile all data for use in modeling visitor and external travel. This will include compiling hotel data from InfoGroup or other sources, coordinating with TTI to obtain cell-phone or location-based data, and summarizing published visitor statistics. In addition, the CS team will explore the use of acquiring AirBnB and/or HomeAway data to analyze the magnitude and distribution of overnight stays at short-term rental properties.

Task 3.2 Visitor Model and External Model Framework

Based on the data obtained, a modeling framework will be developed. The framework will lay out the model input data requirements (e.g. number of hotel rooms, special generator locations),

the visitor trip purposes (e.g. hotel-based trips, external-internal auto trip, etc.), and the trip generation, trip distribution, and mode choice methodologies.

Task 3.3 Model Development

Model development will include estimating trip generation rates for each of the visitor trip and external travel trip purposes. The cell-phone data, lodging data, and visitor statistics will be analyzed to determine the overall magnitude of visitor and external travel by trip purpose. Trip generation models will be developed for each visitor trip purpose.

If available, cell-phone or location-based data will be analyzed to determine distribution of visitor travel trips. Destination choice models will be developed using a combination of estimating new destination choice or gravity models, using existing models from the SAMM 4.0 residential components directly, or transferring models from other regions.

Mode choice models will be developed, where applicable, by using or modifying the existing SAMM 4.0 models. The type of mode choice model implemented may be based on visitor location, with visitors staying downtown being subjected to a different mode choice model then those staying in non-downtown locations. Visitors to non-downtown locations may be assumed to travel exclusively by auto modes, while downtown visitors will have a much higher rate of transit use and non-motorized travel.

The external and visitor travel components will be combined with the other components of the SAMM 4.0 model for highway and transit assignment.

Task 3.4 Model Calibration and Validation

The external and visitor models will be calibrated to the available data compiled as part of Task 3.1. The models will be validated by ensuring that the output from the entire SAMM model matches closely with observed data at the regional level by highway facility type and area type. Validation will also focus on ensuring that counts match-up with observed data in specific locations including external stations, airport, downtown, and other locations with high visitor travel. As needed, the visitor, external, or residential model components will be adjusted to produce a well calibrated and validated model.

Task 4 – Application Support

This task includes addressing travel demand modeling needs that arise due to requests from AAMPO, partner agencies, or other entities. The modeling needs may include model application work such as developing input data (i.e. socioeconomic data or roadway and transit network updates), running the model, and producing summary output statistics. This task may also include answering questions about the model or compiling data or model output results from previous scenarios (e.g. base model run). Also part of this task, if applicable, will be to support AAMPO staff in developing model outputs needed to address AAMPO's federal requirements under non-attainment.

Budget Allocation

Budget: \$75,000

9. Action on Performance Measures and Target Setting (Safety and Transit)

Purpose

The purpose of this agenda item is to take action on regional targets associated with safety and transit asset management performance measures.

Issue

The U.S. Department of Transportation (USDOT) is implementing several roadway-related performance requirements created under MAP-21 and the FAST Act. In the coming months, the Transportation Policy Board is required to set regional targets for two of these performance areas: roadway safety and transit asset management.

Statewide safety targets and local transit asset management targets have been set by the Texas Department of Transportation and VIA Metropolitan Transit.

Safety performance measures focus on reducing the number of people killed and seriously injured in motorized and non-motorized crashes. Transit asset management performance measures focus on achieving a state of good repair for the nation's public transportation systems. By reporting targets in the Metropolitan Transportation Plan and Transportation Improvement Program, performance measures can inform planning and funding decisions in the pursuit of regional and national goals.

Presentations introducing transportation performance measures were made by FHWA and AAMPO staff at your June meeting. At your August meeting, AAMPO staff presented regional crash data and resulting trends. At your December meeting, significant discussion continued regarding the targets for the five safety performance measures.

The information presented at the January 5, 2018 Technical Advisory Committee meeting is attached. A more streamlined version will be provided and presented at your meeting. At their January meeting, the Technical Advisory Committee unanimously recommended approval of following VIA's recommendations on transit asset performance measures, and following the Texas Department of Transportation's recommendations on safety performance measures.

Action Requested

Discussion will determine action to be taken.

Technical Advisory Committee | January 5, 2018

"A generation ago, driving in the United States was relatively safe." Today, Americans travel on the most dangerous roads in the industrialized world.

-David Leonhardt, *The New York Times*

Deaths per billion vehicle miles traveled 2015 and 1990

Adapted from The New York Times

Source: Organisation for Economic Co-operation and Development

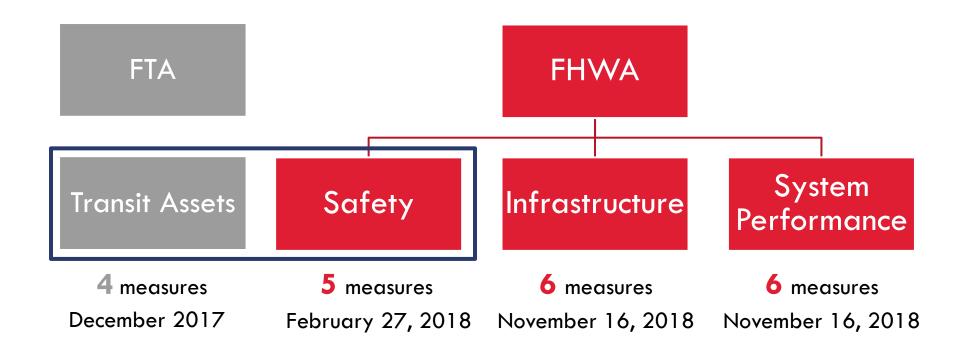

Why set a target?

- 1. To acknowledge a baseline
- 2. Track progress in key areas over time
- 3. Gauge the effectiveness of strategies at a regional level
- 4. Compare performance across the nation

Performance measures are required by MAP-21 and the FAST ACT

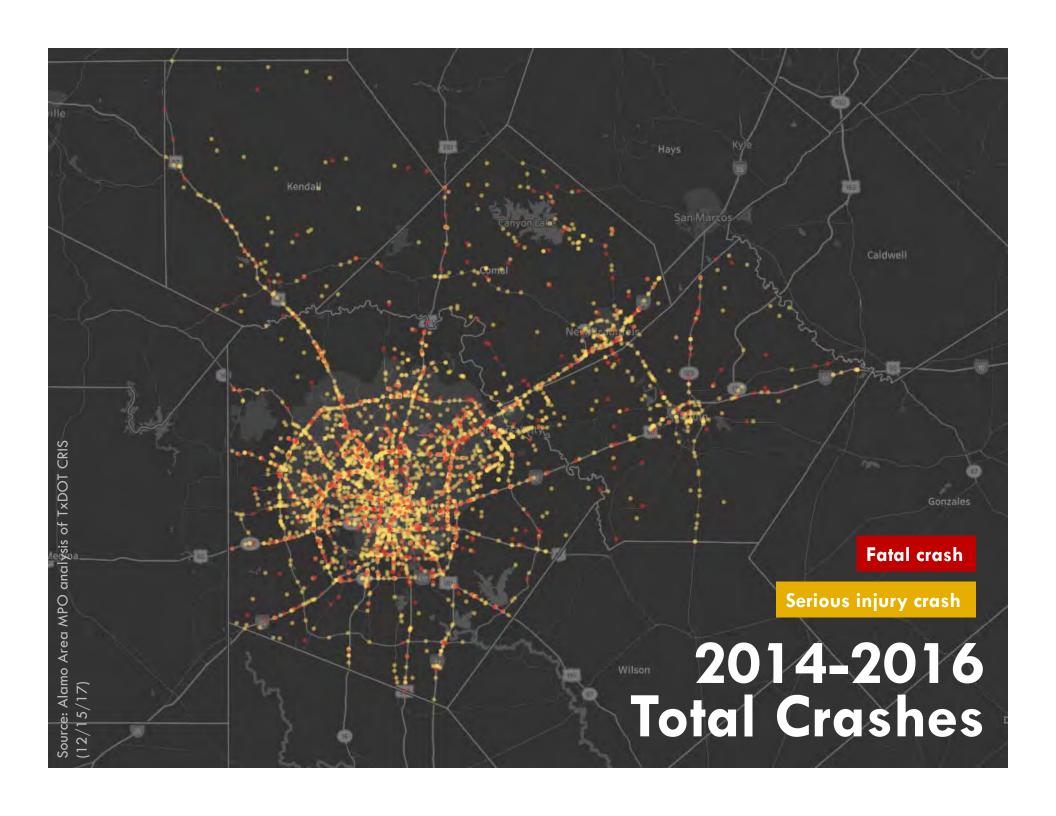

Five Safety performance measures

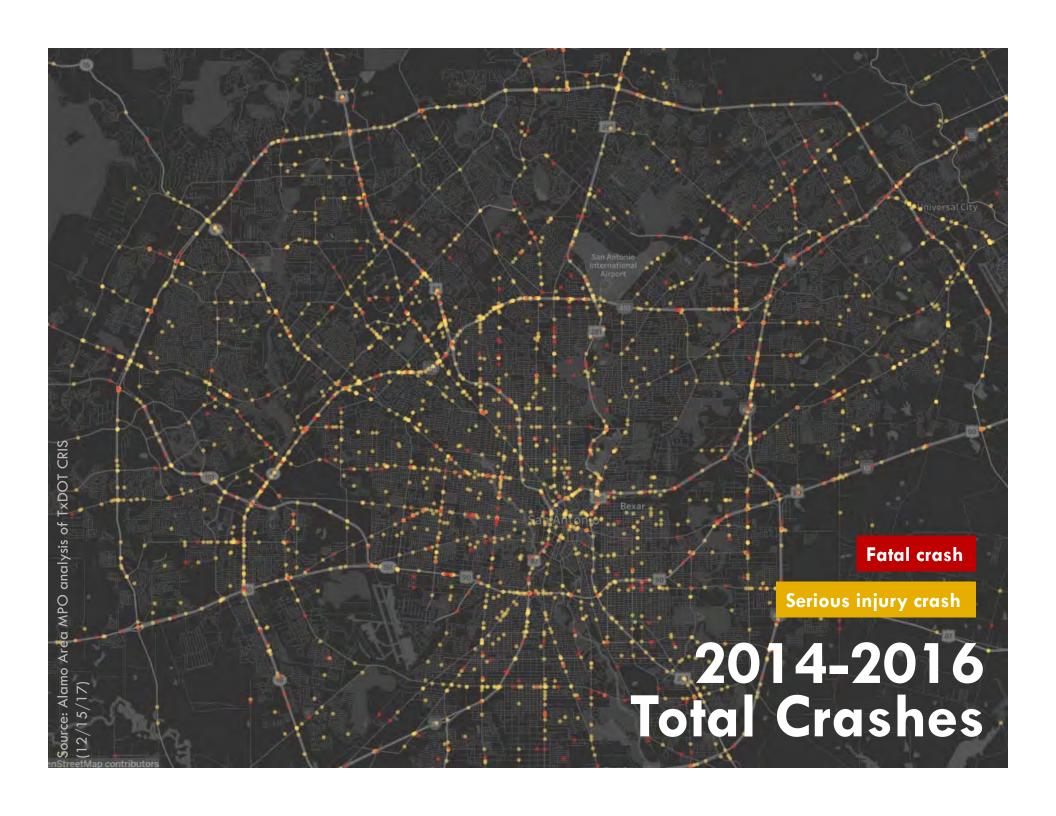

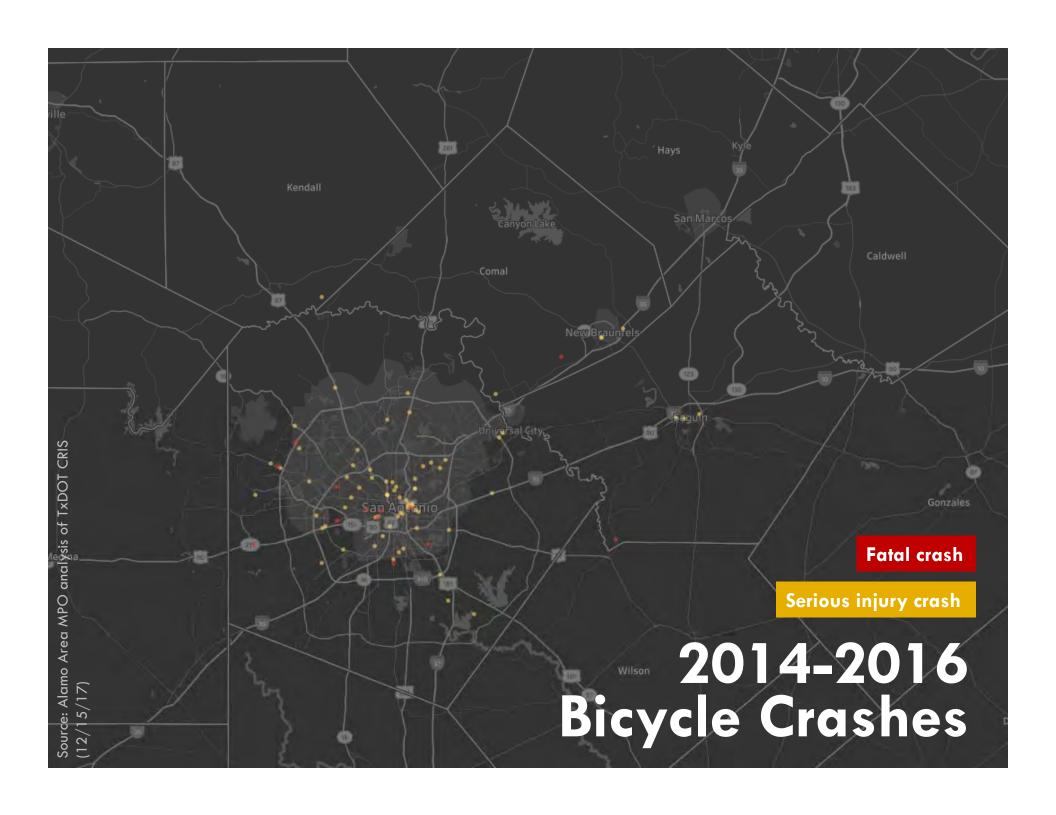

- Number of Fatalities: The total number of persons suffering fatal injuries in a motor vehicle crash during a calendar year.
- 2. Rate of Fatalities: The ratio of total number of fatalities to the number of vehicle miles traveled (VMT, in 100 Million VMT) in a calendar year.
- 3. Number of Serious Injuries: The total number of persons suffering at least one serious injury in a motor vehicle crash during a calendar year.
- 4. Rate of Serious Injuries: The ratio of total number of serious injuries to the number of VMT (in 100 Million VMT) in a calendar year.
- 5. Number of Non-motorized Fatalities and Serious Injuries: The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle during a calendar year.

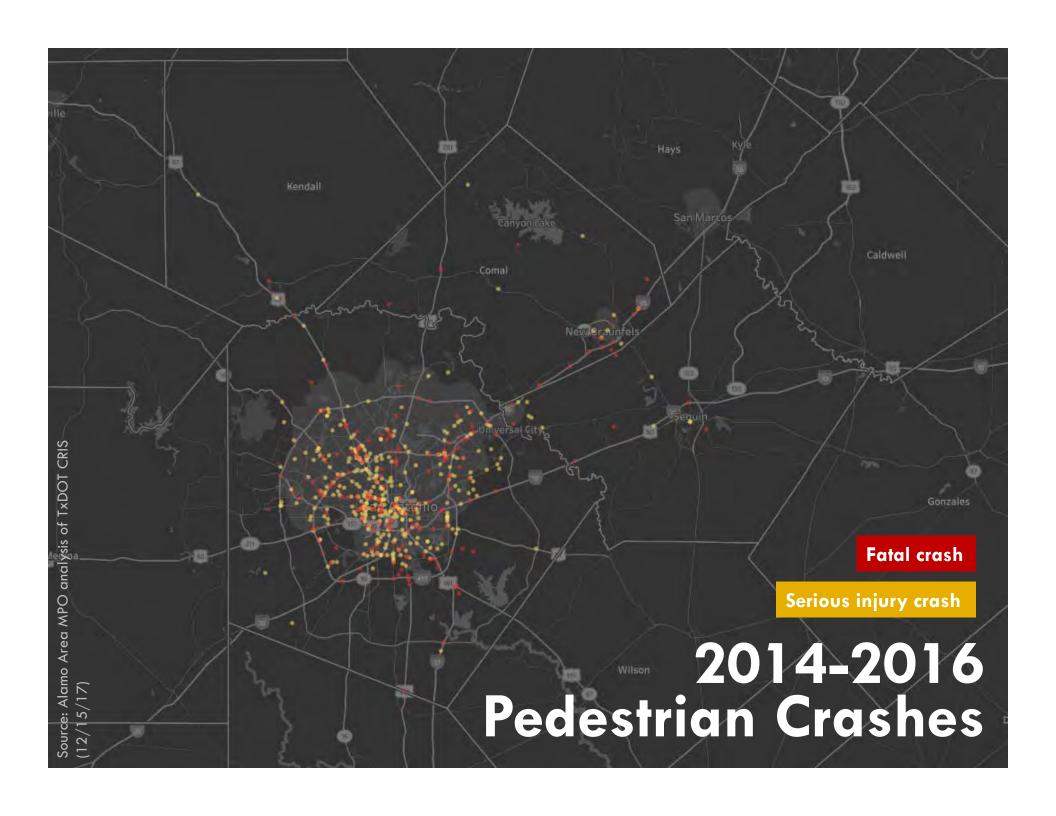

MPOs can agree to support the statewide targets or choose to develop targets specific for their region

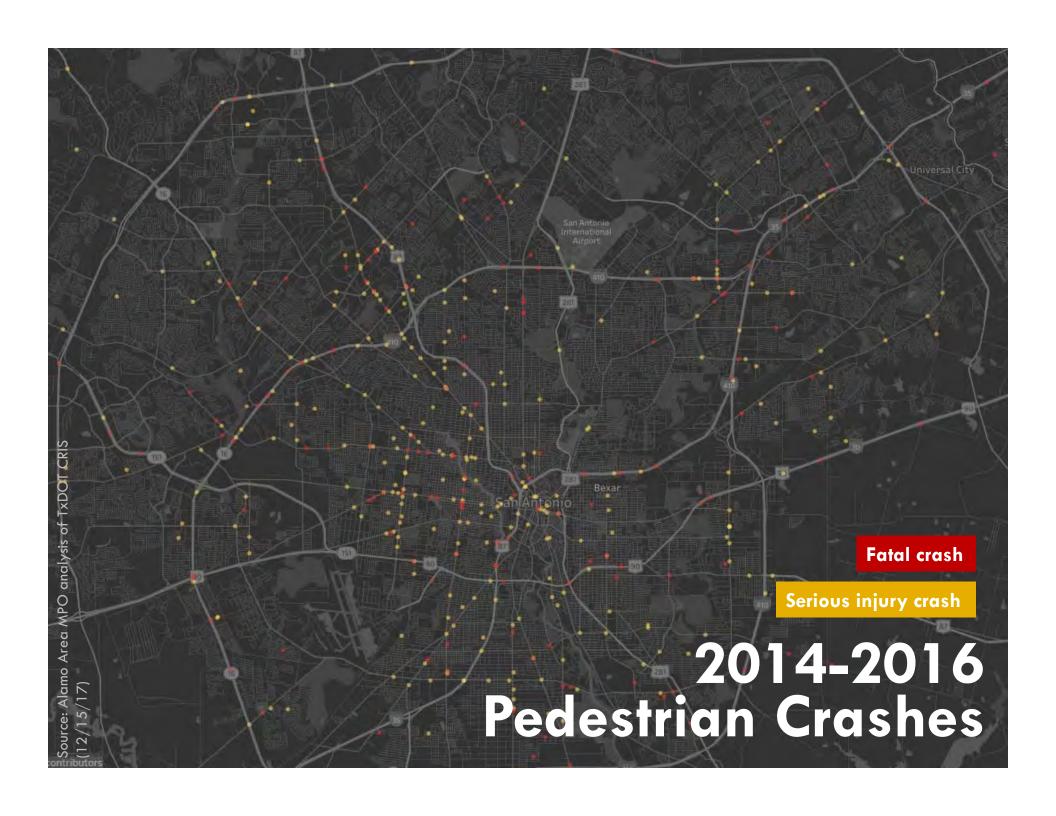

MAPS

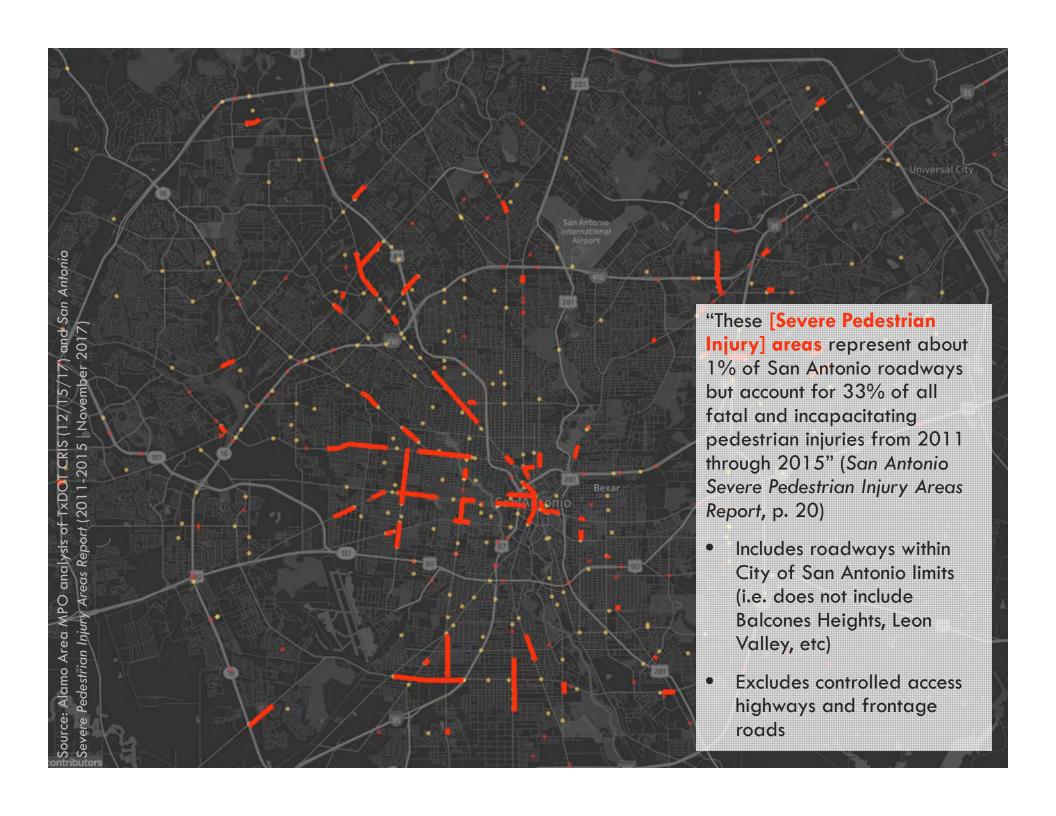

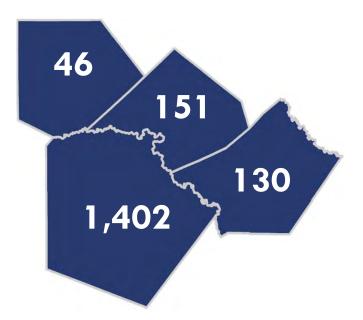

TRENDS

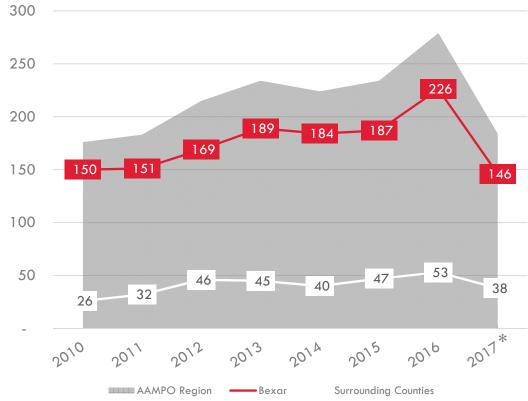

Number of Fatalities (2010-2017)

A local group of professionals working to improve traffic safety meets monthly as Traffic Jam

AAMPO educates residents about safe street design during Walkable Community Workshops

Local safety campaigns: #My3Feet, #VIAware, #don'tchase thebus

Social rides and annual events like Siclovia have encouraged thousands of people to try bicycling and allow a venue for sharing safety information

AAMPO has hosted 21 years of Walk & Roll Rallies encouraging active forms of transportation and safety in commuting

Earn-a-Bike offers children and adults a chance to earn their bicycle while learning safe riding habits and maintenance

How free Fiesta ride works

- 1. Call participating taxi company, Yellow Cab (222-2222) or San Antonio Taxis (444-2222). Allow 30 minutes for taxi to arrive.
- Mention that you would like to use the free Fiesta ride voucher.
- Cab will pick up from or deliver to a residence, hotel or Fiesta event.
- **4.** Tip and any other charges over \$20 are not covered. Cab company will be reimbursed later by TxDOT.

Source: TxDOT

TxDOT and local employers such as Bexar County encourage people to avoid driving under the influence by offering free rides home during holidays/ events like New Years and Fiesta

Bicycle Level of Suitability and Level of Traffic Stress analysis were conducted to help riders identify safer routes for their comfort levels. MPO has access to the state's CRIS system and regularly pulls and analyzes fatalities and serious injuries

Vision Zero severe pedestrian injury area identified 33% of all pedestrian injuries occur on 1% of corridors

(excludes highways and frontage roads)

MPO studies such as the Road Diet Study, the Pedestrian Safety Action Plan, and the Regional Bike & Pedestrian Study all helped identify potential areas for safety improvements.

TxDOT recently purchased statewide STRAVA data which will provide additional data to evaluate bicycle/pedestrian travel patterns and potential safety issues

The Vision Zero Network published six recommendations for MPO leadership and staff

Centering safety at Metropolitan Planning Organizations

Metropolitan Planning Organizations (MPOs) are a big part of our lives and the regional economy a big part of but thes and the regulative extraors through the planning and programming decisions they make. There are 407 MPOs in the U.S. one for each urbanized area with 50,000 or more people. Congress chasted MPOs to ensure that expenditures of governmental funds for transportation subjects and programs are based on continuing cooperative and comprehensive

The role of MPOs is receiving increasing attention as more people across the country acknowledge the travesty of preventable loss of lives on our roadway. Last year, according to the National Safety Council, an estimated 40,000 people loss their fives and more than a community of the same were inflaced on U.S. roadmays, And traffic deaths deproportionately effect those in communities of come, low-income communities, youth, the eiderly, and those walking and biking.

In communities across the nation, people are stepping up to say "enough is enough" and to shift the paradigms that allow for such tragedy and pain. Cities are adopting the goal and principles of vision Zero, which works to eliminate all traffic fatalities and severe injuries. minde or usus, sale healty, equitable mobility for all Vision Zero strategies emphasize the

need for political leadership, infrastructure improvements, and data even strategies that prioritize seevening fatalities on roadways.

Through regional planning, funding, and policy, MPOs are uniquely positioned to embrace Vision Zero and sare lives. This resource provides examples from around the country and six recommendations for MPOs to improve safety outcomes

PLANNING

A central power of MPOs comes in an ability to simulate a collegiable process to address is suitable a contain agree process in acures. A segon's transportation system is the thread that connects other regional priorities, such as economic competitiveness, access to jobs, public realth and safety, environmental qualwity, and

Long range transportation places Metropolitan transportation plans identify how transportation funds are spent and must consider ten factors including to: increase the safety of the transportation system for motorized and nonthe transportation system for motorized and team of orized users. How actively and meaningfully MPOs implement this safety factor in their long-

TRADITIONAL APPROACH

Traffic deaths are INEVITABLE PERFECT human behavior

Prevent COLLISIONS

INDIVIDUAL responsibility

Saving lives is EXPENSIVE

VISION ZERO

Traffic deaths are PREVENTABLE

Integrate HUMAN FAJLING in approach

Prevent FATAL AND SEVERE CRASHES SYSTEMS approach

Saving lives is NOT EXPENSIVE

VISION 44 TONETWORK

Recommendation 1

Working with state and local partners, set specific regional traffic safety goals and measure and report out progress. Use data, targets and metrics to ensure safety is prioritized regionally.

Steps for AAMPO:

- AAMPO board sets targets by February 2018
- AAMPO staff
 incorporates targets into
 TIP/MTP by May 2018
- AAMPO board will begin discussions around 2019 targets in Fall/Winter 2018

Recommendation 2

Measure the causes of serious crashes to track, improve performance, and report on progress. Focus on equitable investments and safety outcomes across communities.

Steps for AAMPO:

 MPO staff is planning to conduct a regional analysis of crash contributing factors and present findings to the committees and Transportation Policy Board in Summer 2018

lamo

Recommendation 3

Prioritize safety in all **funding** decisions

Steps for AAMPO:

STP-MM projects
 submitted in December
 2017 are being
 technically scored for
 factors including safety

Alamo Area

 MPO staff can propose changes to project submittal and scoring process in the future based on crash factor analysis

Recommendation 4

Proactively share safety resources with local jurisdictions throughout the region.

Steps for AAMPO:

 MPO staff will publish an update to existing online safety dashboard by Fall 2018.

Alamo Area

 AAMPO will host training(s) on the safety dashboard and iMap for agency staff and community leaders

Recommendation 5

Recommend countermeasures and speed management strategies explicitly in MPO transportation plans and priorities. Support local and state speed management efforts.

Steps for AAMPO:

MPO staff can produce
 paper and online resources
 explaining speed
 management strategies
 and highlighting existing
 plans and priorities

Alamo Area

P Board can consider a resolution supporting member agencies working with the Texas Legislature to allow more local control of speed management options

Recommendation 6

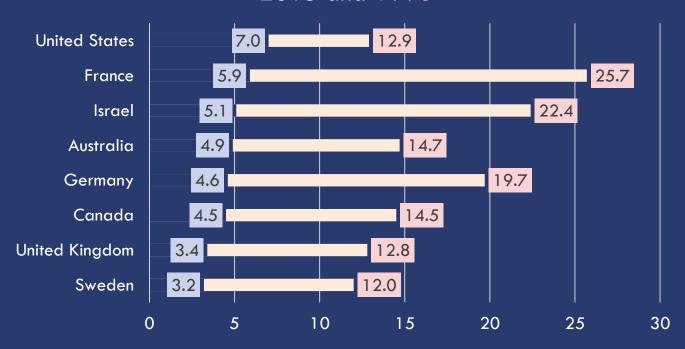

Publicize commitment to safety and equity; offer trainings for staff throughout the region on safety countermeasures and performance management

Steps for AAMPO:

- MPO staff is partnering with local professional organizations to co-host a Vision Zero workshop
- MPO staff can schedule
 presentations focused on
 priority safety areas (i.e.
 speed, older and younger
 system users, etc...)

HOW DID THEY

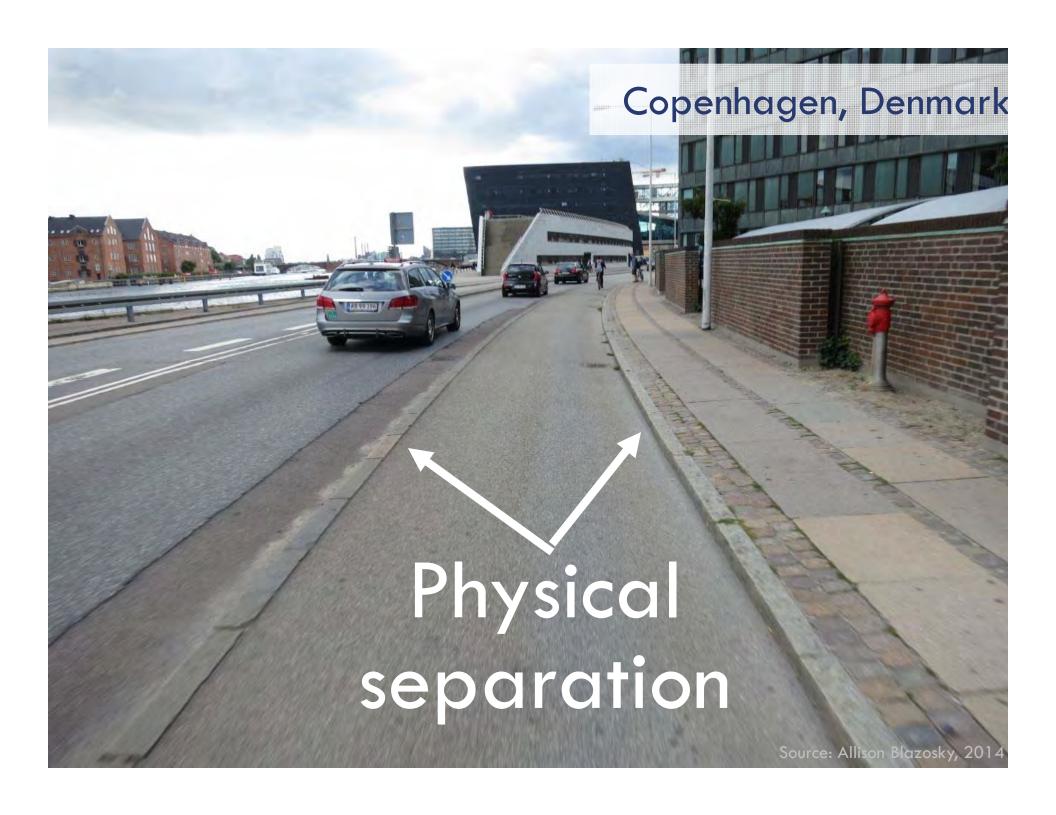

Deaths per billion vehicle miles traveled 2015 and 1990

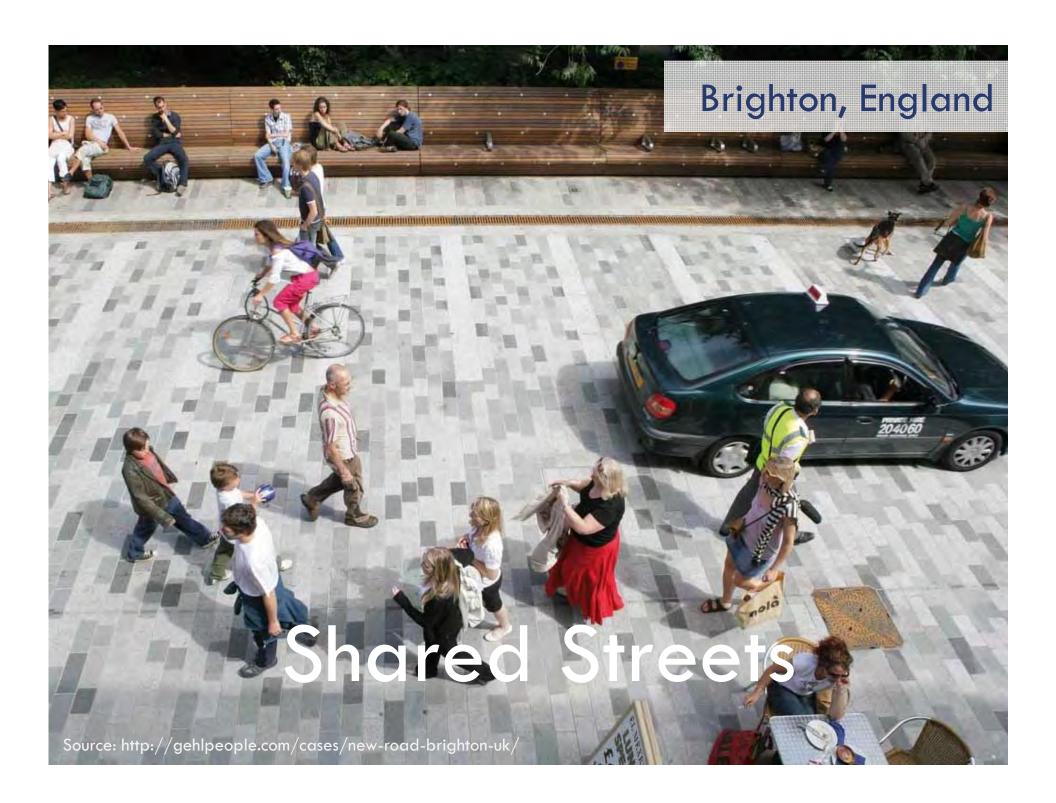

Adapted from The New York Times

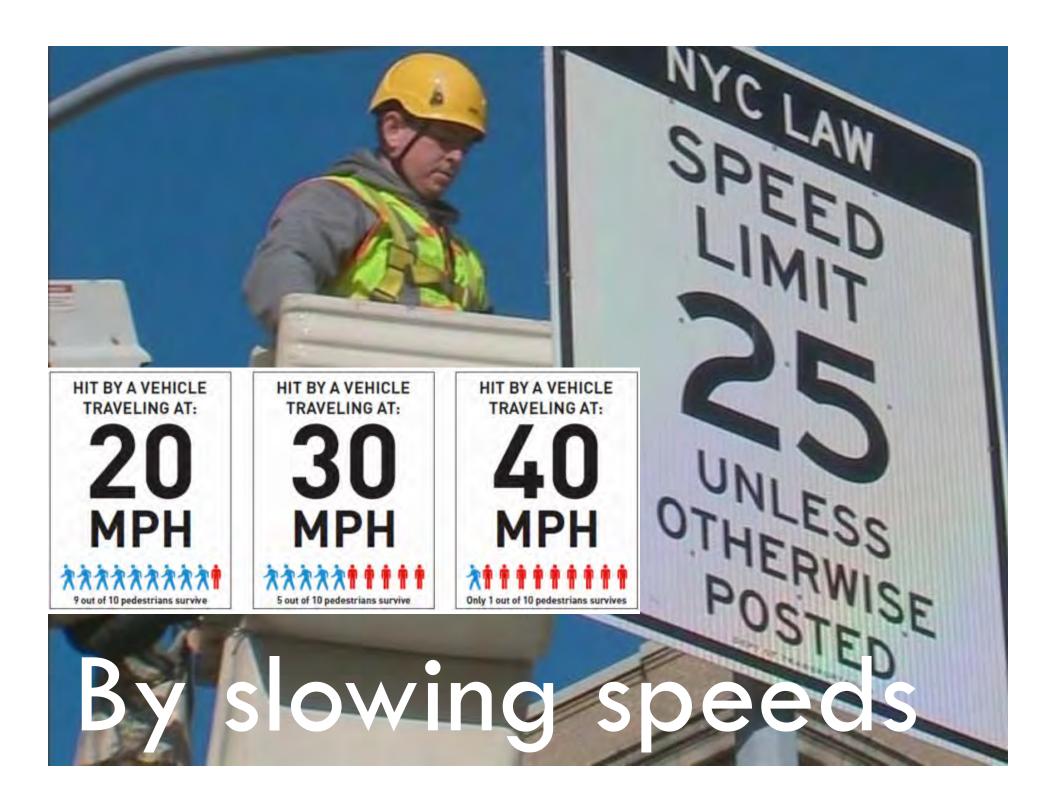

Source: Organisation for Economic Co-operation and Development

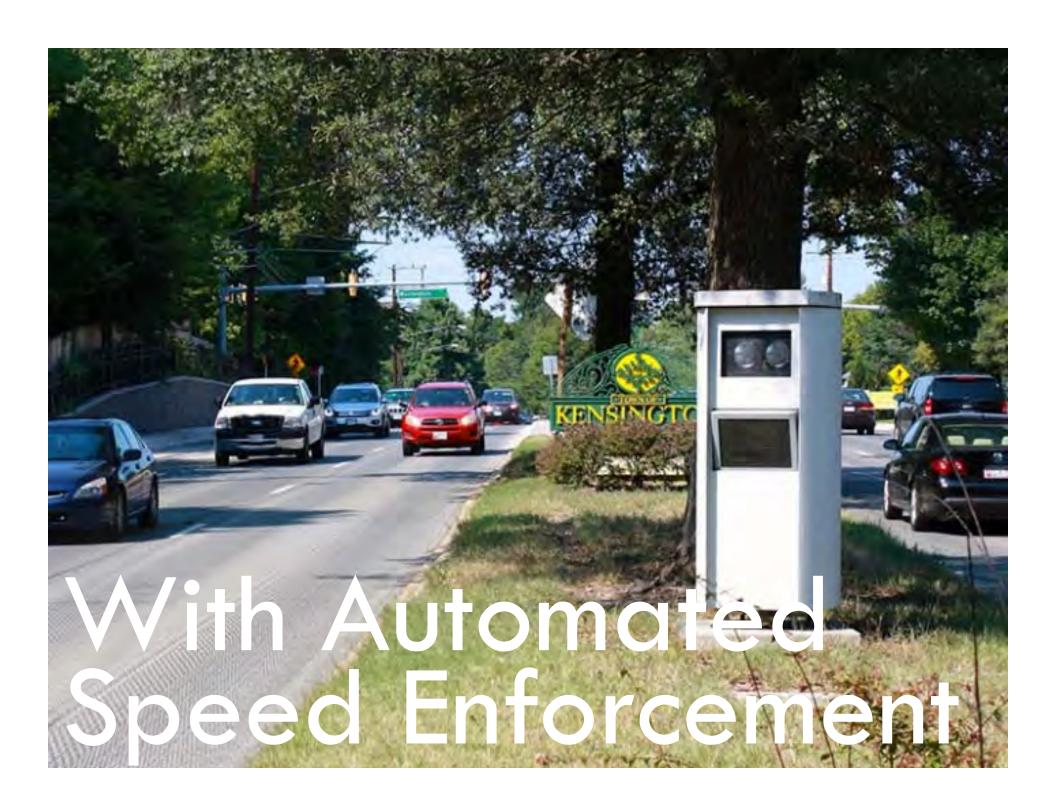

How do we get there?

- Continue the work of the '5 Es' and implement strategies consistently across the region
- Champion big ideas
- Prepare for wider adoption of Connected and Autonomous Vehicle technology
- Set a meaningful target and track progress

10. Status Report on the Development of the FY 2019 – 2022 Transportation Improvement Program

Purpose

The purpose of this agenda item is to receive a status report on the development of the FY 2019-2022 Transportation Improvement Program.

Issue

In May 2017, the Transportation Policy Board approved the schedule and process for developing the FY 2019-2022 Transportation Improvement Program (TIP). The overall TIP development schedule is attached.

Project submittals for the MPO's Surface Transportation Program – Metropolitan Mobility (STP-MM) funding were due to the MPO on Monday, December 4th. Next steps include technical scoring of projects and public input on the submitted projects. The presentation is attached.

Action Requested

No action is requested this month.

Alamo Area Metropolitan Planning Organization FY 2019-2022 Transportation Improvement Program Agency Call for Surface Transportation Program – Metro Mobility (STP-MM) Project Funding

March 27, 2017: Announce at the Transportation Policy Board meeting that the

MPO will hold an agency call for projects to be funded under the

STP-MM Program

April 2017: Presentation to the MPO's Committees on the draft TIP process

and schedule

April 7, 2017: Technical Advisory Committee

April 12, 2017: Bicycle Mobility Advisory Committee
April 19, 2017: Pedestrian Mobility Advisory Committee

April 24, 2017: Transportation Policy Board

May 22, 2017: Action by the Transportation Policy Board on the TIP process

June 1, 2017: Agency call for projects begins

July 26, 2017: Two workshops (9:30 a.m. and 1:30 p.m.) similar in content and

format were held at the MPO Office to provide information and

support to agencies submitting projects

June - November 2017: Agency project development and secure local match

December 4, 2017: Agency project submittals and commitment of local

match were due to the MPO

January 2018: Subcommittees of the Technical Advisory Committee, Bicycle

Mobility Advisory Committee and Pedestrian Mobility Advisory

Committee will score submitted projects as appropriate

February 2018: MPO hosts public meetings/workshops/online input

March 2018: Review of the FY 2019-2022 TIP

March 9, 2018: Technical Advisory Committee

March 26, 2018: Transportation Policy Board (action on STP-

MM funded projects)

April 2018: Approval of the FY 2019-2022 TIP

April 6, 2018: Technical Advisory Committee April 23, 2018: Transportation Policy Board

May 1, 2018: Deadline for transmittal of the FY 2019-2022 TIP to TxDOT

This information is subject to change. It is the submitting agency's responsibility to visit the MPO's website at www.alamoareampo.org for updated information.

FY 2019-2022 Transportation Improvement Program Development: STP-MM Call for Projects

Transportation Policy Board January 22, 2018

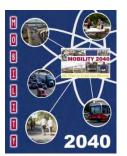

MPO Responsibilities

Unified Planning Work Program:

Planning studies and tasks in a 2 year time period

<u>Metropolitan Transportation Plan:</u>

Future goals, strategies and projects out 25 years

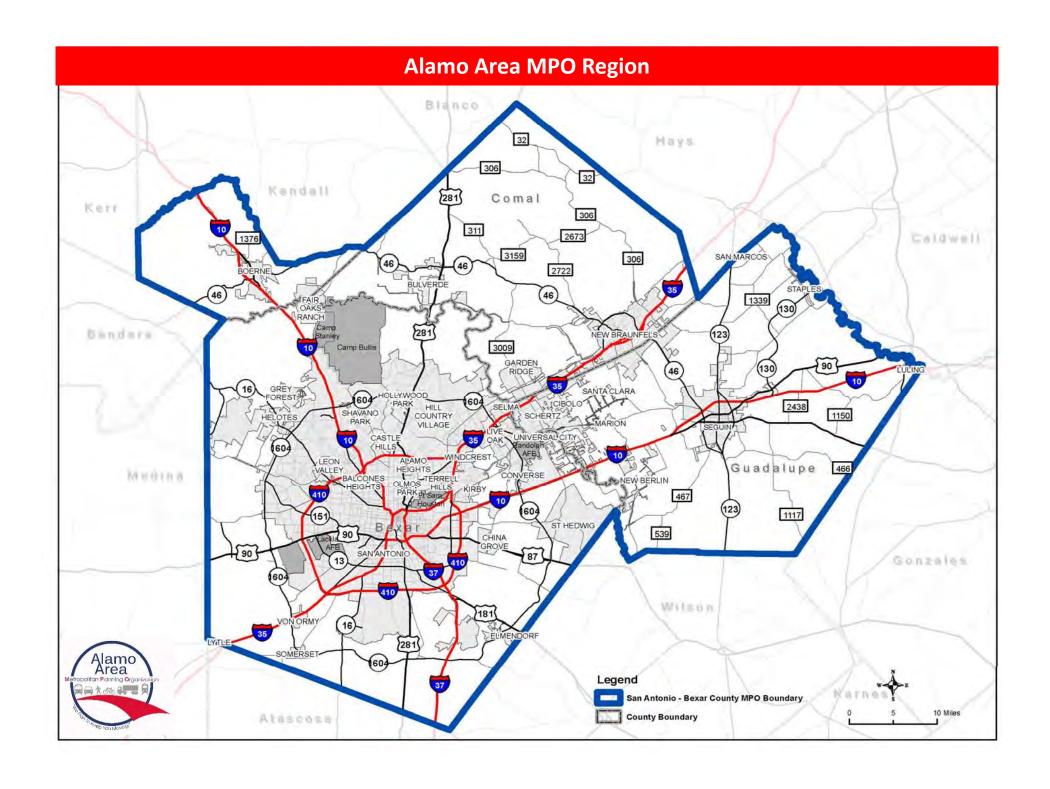

<u>Transportation Improvement Program</u>:

Funded transportation projects in a 4 year time period

Transportation Improvement Program (TIP)

- Covers a time period of four years
- Formally updated every two years
- Financially constrained
- Developed cooperatively among the partner agencies
- Must be consistent with the Metropolitan Transportation
 Plan
- Approval process occurs in two steps with presentation one month and action the next month
- Approved TIP is tentatively due to TxDOT in May 2018

Types of Projects in the TIP

- Additional vehicle lanes
- Alamo Area Commute Solutions Program
- Bicycle and pedestrian facilities
- Bus and van purchases
- Major planning studies
- Operational/Safety improvements
- Transit passenger facilities

State and Federal Funding Categories in the TIP

- Category 1 Preventive Maintenance and Rehabilitation
- Category 2 Metropolitan Area Corridor
- Category 3 Non-traditional funding sources (local contribution)
- Category 4 Connectivity
- Category 7 Surface Transportation Program Metropolitan Mobility (STP-MM)
- Category 9 Transportation Alternatives Program
- Category 11 District Discretionary
- Category 12 Strategic Priority
- Transit project funding

STP-MM: Overview

- "MPO Funded Projects"
- \$150,000,000 \$170,000,000 is available to program
- Required 20% match for the project construction cost
- Commitment of project development costs and local match by the implementing agency
- Roadway projects must be on "functionally classified roadways", not local streets
- Projects could be programmed in years 2019, 2020, 2021, 2022, 2023, 2024 or 2025

STP-MM: Eligible Project Categories

- Added Capacity roadway projects which add through travel lanes.
 These projects would also include bicycle and pedestrian facilities.
- Operational projects which improve the operational function of a facility without adding through lanes. Examples include:
 - Improving intersections, including adding right or left turn lanes
 - Adding a center turn lane
 - Adding acceleration or deceleration lanes
 - Constructing a roundabout
 - Adding or improving intersection signalization
 - Constructing new or reversing ramps
 - Converting frontage roads from two way to one way
 - Reconfiguring travel lanes for a multimodal shift
 - Implementing ITS projects
 - Constructing an interchange

Our project selection process considers:

- Agency priorities
- Project readiness
- Public input
- Technical score

STP-MM: Eligible Project Categories

- Bicycle projects which construct, reconstruct, or upgrade public bicycle facilities.
- Pedestrian projects which construct, reconstruct, or upgrade public pedestrian facilities.
- Other Projects which do not fit within the other major categories. Past examples include:
 - Public Transit Projects
 - Major Planning Studies

Projects that are solely Rehabilitation projects are not eligible

Our project selection process considers:

- Agency priorities
- Project readiness
- Public input
- Technical score

STP-MM: Call for Projects Overview

- Proposed process is very similar to the previous project call process
 - Added capacity, operational, bicycle and pedestrian projects will be technically scored
 - Other projects, to include transit, rideshare or planning studies, will not be scored
 - Additional points for overmatching a project
 (+50 points for overmatching 5%-10% or +100 points for overmatching more than 10% over the required 20% match)
 - \$1,000,000 minimum project construction cost
 - Rehabilitation projects are not eligible
 - Reimbursable funding program, not a grant program and all federal and state rules apply

STP-MM: Project Requirements

- For infrastructure projects: only eligible items related to construction will be reimbursable; project development costs are the responsibility of the implementing agency
- Although the Transportation Policy Board makes all funding decisions associated with STP-MM funds, TxDOT is the federal designated pass-through agency for this funding source. Entities awarded funding will enter into agreements with TxDOT. TxDOT will require reimbursement of their costs for review and coordination of the project.
- Cost overruns are the responsibility of the implementing agency; or re-scope project with Transportation Policy Board approval

STP-MM: Project Funding History

- 2011 Call for Projects (FY 2013-2016 TIP)

 - 19 projects were selected for funding at an amount of nearly \$92M
- 2013 Call for Projects (FY 2015-2018 TIP)
 - 56 projects totaling nearly \$435M were submitted
 - 19 projects were selected for funding at an amount of nearly \$110M
- 2015 Call for Projects (FY 2017-2020 TIP)
 - 40 projects totaling nearly \$400M were submitted
 - 23 projects were selected for funding at an amount of nearly \$166M
 (programmed funding out two years past the TIP timeframe)
- 2017 Call for Projects (FY 2019-2022 TIP)
 - 48 projects totaling over \$462M were submitted (includes overmatch)
 - The STP-MM portion totals over \$402M (without overmatch)

Submitted Project Summary

	Number of Projects	Total/STP-MM Portion	Percentage of STP-MM Portion
Added Capacity	13	\$166,523,495/\$148,273,495	37%
Bicycle/ Pedestrian	4	\$21,058,000/\$17,058,000	4%
Operational	27	\$227,696,508/\$199,888,654	50%
Other	4	\$47,301,000/\$37,301,000	9%
Total	48	\$462,579,003/\$402,521,149	100%

Classifications are subject to change. "Total" includes the overmatch of more than 20%.

Submittal Summary by Agency

Agency	Added Cap	Bike/Ped	Operational	Other	Total
AACOG	0	0	0	1	1
Balcones Hts	0	0	1	0	1
Bexar County	2	0	0	0	2
Boerne	0	0	1	0	1
Castle Hills	0	0	2	0	2
New Braunfels	1	1	0	0	2
San Antonio	2	1	4	1	8
Seguin	1	0	0	0	1
TxDOT **	7	1	19	1	28
Universal City	0	1	0	0	1
VIA Transit	0	0	0	1	1
Total	13	4	27	4	48

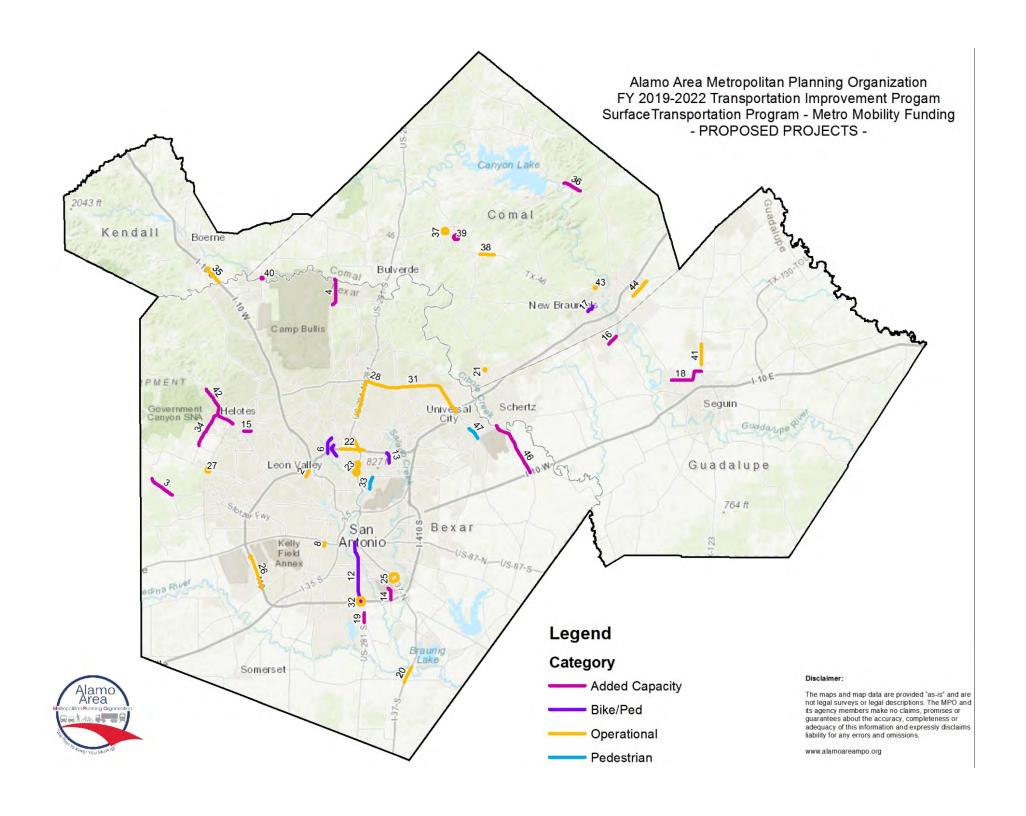

^{**} TxDOT has submitted projects on state roadways on behalf of the cities of Fair Oaks Ranch, New Braunfels, Schertz, Shavano Park, Bexar, Comal and Guadalupe counties, and others.

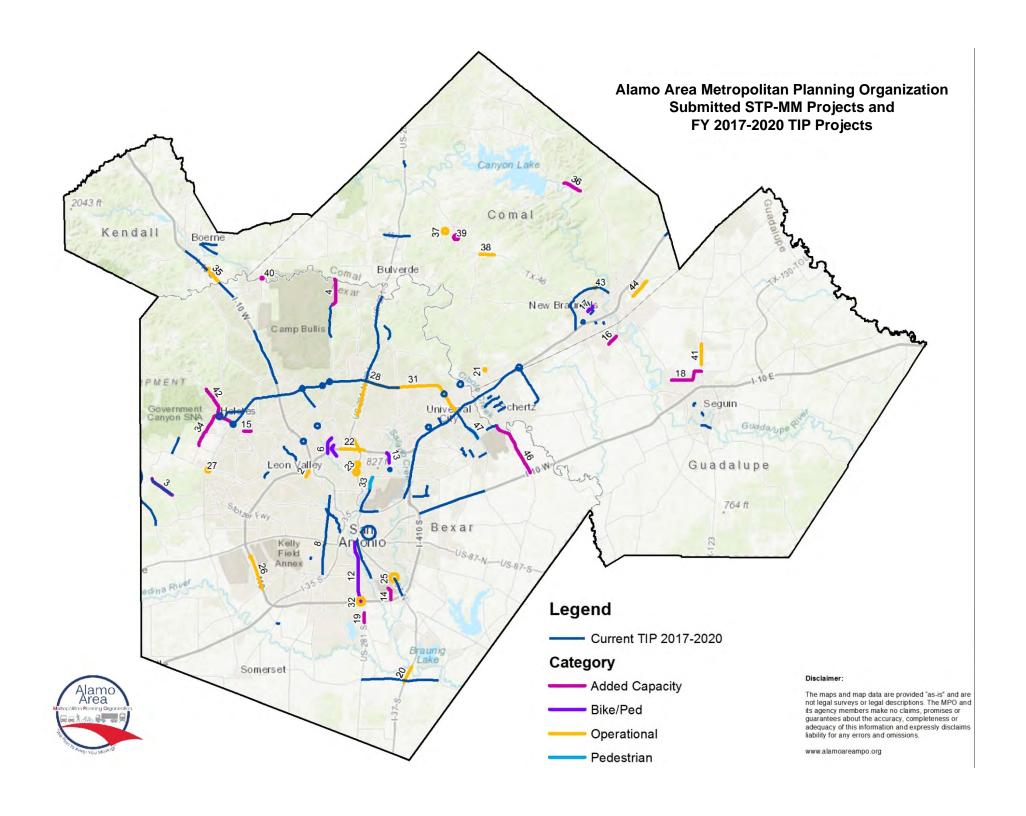

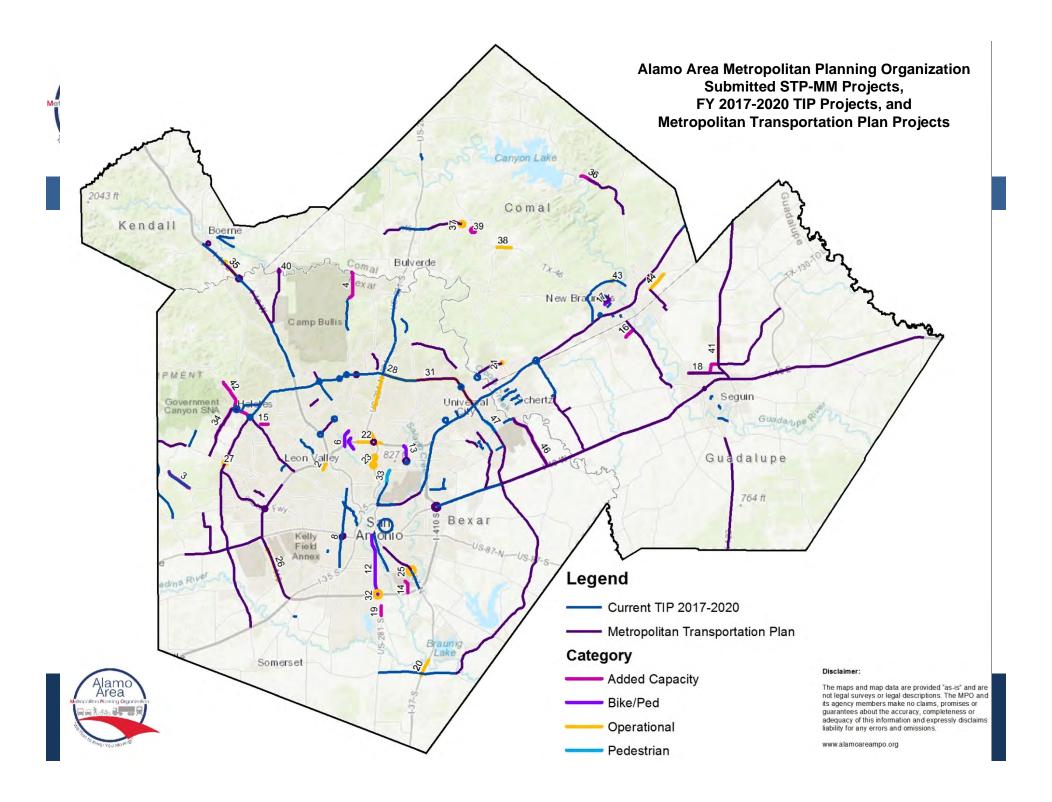

Submittal Summary by Agency

Agency	#of Projects	STP-MM Funding Requested	Percent of Total
AACOG	1	\$801,000	<1%
Balcones Hts	1	\$4,200,000	1%
Bexar County	2	\$26,778,495	7%
Boerne	1	\$2,770,677	1%
Castle Hills	2	\$5,560,027	1%
New Braunfels	2	\$6,073,000	2%
San Antonio	8	\$80,000,000	21%
Seguin	1	\$12,000,000	3%
TxDOT **	28	\$234,557,950	60%
Universal City	1	\$2,500,000	1%
VIA Transit	1	\$15,000,000	4%
Total	48	\$390,241,149	100%

^{**} TxDOT has submitted projects on state roadways on behalf of the cities of Fair Oaks Ranch, New Braunfels, Schertz, Shavano Park, Bexar, Comal and Guadalupe counties, and others.

TIP Development Schedule
