

## Memorandum June 21, 2022

## This agenda is subject to revision up to 72 hours prior to the meeting.

**To:** All Members, Transportation Policy Board **From:** Kevin Webb, Chair and Sid Martinez, Director

Subject: Transportation Policy Board Meeting Notice and Agenda

The next meeting of the **AAMPO Transportation Policy Board** is scheduled for **Monday, June 27, 2022 at 1:30 p.m.** 

at the VIA Metro Center Community Room located at 1021 San Pedro Avenue, San Antonio, TX 78212

View the meeting live at www.alamoareampo.org/MPOLive

The following agenda items will be discussed and action will be taken as appropriate.

Items may be taken out of the order shown.

Citizens to be Heard: Speakers will be allowed up to three (3) minutes each to address the AAMPO Transportation Policy Board on any <u>one</u> specific agenda item. While speakers who have signed up may donate their time to another speaker, the maximum time allowed for any individual speaker will be nine (9) minutes. Speakers who wish to address the AAMPO Board on multiple items or on items not listed on the agenda must do so under Citizens to be Heard. All speakers must register, state their names, and any organizations they represent.

## Agenda:

- 1. Roll Call
- 2. Director's Report MPO (Martinez)
  - a. The AAMPO office will be closed on Monday, July 4, 2022 in observance of American Independence Day.
  - The July 2022 Active Transportation Committee, Technical Advisory Committee, and Transportation Policy Board meetings will likely be cancelled. Meetings will resume in August.
  - c. The US Department of Transportation has issued a Notice of Funding Opportunity for the Bridge Investment Program (BIP). Funds will be awarded on a competitive basis for 1) bridge replacement, rehabilitation, preservation, and protection projects that improve safety, efficiency, and reliability of the movement of people and freight over bridges and 2) improve the condition of US bridges.
  - d. The AAMPO Executive Committee will likely meet in early August to review the proposed AAMPO Fiscal Year 2023 Staff Operating Budget.

#### 3. Citizens to be Heard

<u>Consent Agenda:</u> All items under the Consent Agenda are acted upon collectively unless opposition is presented, in which case, the contested item will be considered, discussed and appropriate action taken separately.

- 4. **Approval** of the May 23, 2022 Meeting Minutes
- 5. **Action** on Required MPO Certifications
  - a. MPO Self-Certification
  - b. Project Selection Procedure
  - c. Internal Ethics and Compliance Program
  - d. Lobbying Certification
  - e. Debarment Certification
  - f. Procurement Procedures
  - g. US DOT Standard Title VI/Non-Discrimination Assurances

## **Items for Individual Discussion and Appropriate Action:**

- 6. Texas Department of Transportation's Highway Safety Improvement Plan (HSIP) Presentation TxDOT (Picha)
- 7. Discussion and Appropriate Action on Roadway System Performance Measures and 2023 Target Setting AAMPO (Hall)
- 8. Discussion and Appropriate **Action** on AAMPO's Metropolitan Transportation Plan (MTP), FY 2023-2026 Transportation Improvement Program (TIP), and 2023 Transportation Conformity Document AAMPO (Jimenez/Hall)
- 9. Monthly Status Reports
  - a. Alamo Regional Mobility Authority/Bexar County (Renee Green)
  - b. Air Quality Issues (Diane Rath)
  - c. City of San Antonio (Razi Hosseini)
  - d. San Antonio Mobility Coalition (Vic Boyer)
  - e. Texas Department of Transportation (Gina Gallegos)
  - f. VIA Metropolitan Transit (Jeff Arndt)
  - g. Others
- 10. Executive Session Pursuant to Chapter 551, Subchapter D, Texas Government Code

At any time during the meeting of the AAMPO Transportation Policy Board, the Board reserves the right to adjourn into executive Session at any time to discuss any of the matters listed on the posted agenda, as authorized by Texas Government Code Section 551.071 (consultation with attorney), Section 551.072 (deliberations about real property), Section 551.074 (personnel matters), and Section 551.086 (economic development).

11. Adjourn

## 1. Roll Call

| Mr. Kevin Wolff****                 | Advanced Transportation District       | 210-362-2000 |  |  |  |  |
|-------------------------------------|--|--------------|--|--|--|--|
| Mr. Michael J. Lynd, Jr.            | Alamo Regional Mobility Authority      | 210-335-7065 |  |  |  |  |
| Commissioner Marialyn Barnard       | Bexar County                           | 210-335-2613 |  |  |  |  |
| Commissioner Tommy Calvert          | Bexar County                           | 210-335-2614 |  |  |  |  |
| Commissioner Rebeca Clay-Flores***  | Bexar County                           | 210-335-2611 |  |  |  |  |
| Ms. Renee Green, P.E.               | Bexar County                           | 210-335-6700 |  |  |  |  |
| Councilmember Shane Hines           | City of New Braunfels                  | 830-214-5938 |  |  |  |  |
| Councilman Mario Bravo              | City of San Antonio, District 1        | 210-207-7279 |  |  |  |  |
| Councilwoman Melissa Cabello Havrda | ** City of San Antonio, District 6     | 210-207-7065 |  |  |  |  |
| Mr. Razi Hosseini, P.E.             | City of San Antonio                    | 210-207-8022 |  |  |  |  |
| Councilman Clayton Perry            | City of San Antonio, District 10       | 210-207-7276 |  |  |  |  |
| Councilwoman Ana Sandoval           | City of San Antonio, District 7        | 210-207-7044 |  |  |  |  |
| Ms. Bridgett White                  | City of San Antonio                    | 210-207-0147 |  |  |  |  |
| Mayor Donna Dodgen                  | City of Seguin                         | 210-504-9709 |  |  |  |  |
| Commissioner Kevin Webb*            | Comal County                           | 830-221-1100 |  |  |  |  |
| Mayor Chris Riley [Leon Valley]     | Greater Bexar County Council of Cities | 210-684-1391 |  |  |  |  |
| Judge Kyle Kutscher                 | Guadalupe County                       | 830-303-8857 |  |  |  |  |
| Commissioner Christina Bergmann     | Kendall County Geographic Area         | 830-331-8254 |  |  |  |  |
| Councilman Kevin Hadas [Selma]      | Northeast Partnership                  | 210-651-6661 |  |  |  |  |
| Ms. Gina Gallegos, P.E.             | Texas Department of Transportation     | 210-615-5803 |  |  |  |  |
| Mr. Javier Paredes                  | VIA Metropolitan Transit               | 210-362-2000 |  |  |  |  |

## **Ex-Officio Members**

- \*\*\*\* Past Chair

## 2. Director's Report

- a. The AAMPO office will be closed on Monday, July 4, 2022 in observance of American Independence Day.
- b. The July 2022 Active Transportation Committee, Technical Advisory Committee, and Transportation Policy Board meetings will likely be cancelled. Meetings will resume in August.
- c. The US Department of Transportation has issued a Notice of Funding Opportunity for the Bridge Investment Program (BIP). Funds will be awarded on a competitive basis for 1) bridge replacement, rehabilitation, preservation, and protection projects that improve safety, efficiency, and reliability of the movement of people and freight over bridges and 2) improve the condition of US bridges.
- d. The AAMPO Executive Committee will likely meet in early August to review the proposed AAMPO Fiscal Year 2023 Staff Operating Budget.

## 3. Citizens to Be Heard

Speakers will be allowed up to three (3) minutes each to address the AAMPO Transportation Policy Board on any <u>one</u> specific agenda item. While speakers who have signed up may donate their time to another speaker, the maximum time allowed for any individual speaker will be nine (9) minutes. Speakers who wish to address the AAMPO Board on multiple items or on items not listed on the agenda must do so under Citizens to be Heard. All speakers must register, state their names, and any organizations they represent.

## 4. Approval of the May 23, 2022 Meeting Minutes

#### Issue

The May 23, 2022 meeting minutes are attached for review.

## **Action Requested**

A motion to approve the May 23, 2022 meeting minutes.

## Transportation Policy Board Meeting Minutes May 23, 2022

#### 1. Roll Call

#### **Members Present:**

Mr. Kevin Wolff Commissioner Marialyn Barnard Commissioner Rebeca Clay-Flores

Ms. Renee Green, P.E.

Councilmember Shane Hines

Councilwoman Melissa Cabello Havrda

Mr. Razi Hosseini, P.E. Councilman Clayton Perry

Councilwoman Ana E. Sandoval

Ms. Bridgette White

Mr. Don Keil

Commissioner Kevin Webb (Chair)

Mayor Chris Riley Judge Kyle Kutscher

Commissioner Christina Bergmann

Councilman Kevin Hadas Ms. Gina Gallegos, P.E.

## **Members Absent:**

Mr. Michael J. Lynd, Jr. Commissioner Tommy Calvert Councilman Mario Bravo Mr. Javier Paredes

## **Others Present**:

Mr. Frank Garza

Mr. Isidro "Sid" Martinez

Mr. Vic Boyer

Ms. Kammy Horne

**Advanced Transportation District** 

Bexar County

Bexar County

**Bexar County**

Davidson Troilo Ream & Garza Metropolitan Planning Organization San Antonio Mobility Coalition VIA Metropolitan Transit

Chair Kevin Webb called the meeting to order at 1:30 p.m.

## 2. Director's Report

- a. The 2023 Transportation Conformity Document is available for public comment from Wednesday, May 18, 2022 Friday, June 20, 2022.
- b. The AAMPO office will be closed on Monday, May 30, 2022 in observance of Memorial Day and on Monday, June 20, 2022 in observance of Juneteenth.
- May is National Bike Month and AAMPO participated in a variety of events including the Bike Month Challenge with Alamo Commutes, Streets Skills, and Bike to Work Day Energizer Stations

#### 3. Citizens to be Heard

City of Balcones Heights Mayor, Suzanne de Leon, and City Administrator, Mr. David Harris, expressed gratitude that a needed project within Balcones Heights is being moved forward (agenda item 6a).

### **Consent Agenda:**

- **4. Approval** of the April 25, 2022 Meeting Minutes
- 5. Discussion and Appropriate **Action** on Amendments to the FY 2022-2023 Unified Planning Work Program (UPWP) AAMPO (Jimenez)

Judge Kyle Kutscher moved and Mayor Chris Riley seconded to approve the consent agenda. The motion passed unanimously.

## **Items for Individual Discussion and Appropriate Action:**

- 6. Discussion and Appropriate Action on AAMPO's Plans and Documents AAMPO (Jimenez/Hall)
  - a. Metropolitan Transportation Plan (MTP) *Mobility 2050*
  - b. FY 2023-2026 Transportation Improvement Program (TIP)
  - c. 2023 Transportation Conformity Document

## For information and discussion only.

## 7. Monthly Status Reports

- a. Alamo Regional Mobility Authority (Renee Green)
- b. Air Quality Issues (Diane Rath)
- c. City of San Antonio (Razi Hosseini)
- d. San Antonio Mobility Coalition (Vic Boyer)
- e. Texas Department of Transportation (Gina Gallegos)
- f. VIA Metropolitan Transit (Jeff Arndt)
- g. Others

For information and discussion only.

|     | Code  |

This item was not considered.

| 13. Adjourn |
|-------------|
|-------------|

There being no further business, the meeting was adjourned at 2:30 p.m.

Commissioner Kevin Webb, Chair Transportation Policy Board

## 5. Action on Required MPO Certifications

## **Purpose**

Each year the Metropolitan Planning Organization (MPO) is required to certify compliance with applicable Federal laws and regulations. This agenda item outlines each of these requirements.

#### Issue

## a. MPO Self-Certification

AAMPO and the Texas Department of Transportation (TxDOT) are required to certify the transportation planning process is in compliance with all applicable federal requirements. Enclosed in your package is the certification statement to be signed by the AAMPO Chairman and the TxDOT District Engineer. Also enclosed is a memorandum that discusses each of the applicable requirements and how the local process complies with those requirements.

## b. Project Selection Procedure

Each year the AAMPO, with TxDOT and VIA Metropolitan Transit, must establish a procedure for implementing projects programmed in the Transportation Improvement Program. Enclosed for your review and approval is the Project Selection Procedure. The enclosed procedure is consistent with the procedure that has been in place over several years and allows the implementing agencies sufficient flexibility to move projects forward.

## c. Internal Ethics and Compliance Program

Each year AAMPO certifies it has adopted and enforces an internal ethics and compliance program designed to detect and prevent violations of law, including regulations and ethical standards applicable to this entity or its officers or employees and that the internal ethics and compliance program satisfies the requirements of by 43 TAC § 31.39. "Required Internal Ethics and Compliance Program" and 43 TAC § 10.51 "Internal Ethics and Compliance Program" as may be revised or superseded.

## d. Lobbying Certification

Each year AAMPO must certify to the Federal Highway and Federal Transit Administrations that federal transportation planning funds have not and will not be used for the purpose of lobbying federal agency employees and members of Congress. Enclosed for your review and approval is AAMPO's Lobbying Certification Statement.

#### e. Debarment Certification

Each year AAMPO must certify to the Federal Highway and Federal Transit Administrations that it is not barred, suspended, or ineligible to receive federal transportation funds. Enclosed for your review and approval is AAMPO's Debarment Certification Statement.

#### f. Procurement Procedures

In June 1994, the Texas Department of Transportation (TxDOT) approved AAMPO's Contract and Procurement Procedures. In accordance with TxDOT requirements, AAMPO is to certify that the MPO remains in compliance with the adopted procedures.

#### g. US DOT Standard Title VI/Non-Discrimination Assurances

Every three years, or within 30 days following a change in executive leadership, the head of the agency is required to sign the US DOT Standard Title VI Assurances. Title VI applies to any entity that receives Federal assistance, either directly or indirectly through another recipient, for any program. Further, federal funding assistance recipients must operate all programs and activities without discrimination. The Title VI assurances statement, signed by the head of the agency, should express the agency's commitment to the nondiscrimination provisions of Title VI.

#### **Action Requested**

A motion to certify that the Alamo Area Metropolitan Planning Organization's Transportation Planning Process is in compliance with all applicable Federal requirements; move to approve all certifications and assurances as presented; further authorize the AAMPO Chair and others to sign the required certifications as necessary; and AAMPO staff to submit them to the appropriate State and Federal officials.

## **Certification of Planning Process**

Title 23 of the Code of Federal Regulations, §450.336 mandates that the State and the Metropolitan Planning Organization (MPO) certify that the planning process is consistent with the requirements of 23 USC §134; and 49 USC §5303, and 23 CFR 450 subpart A – Metropolitan Transportation Planning and Programming. The requirements of this certification and the actions(s) taken by the Alamo Area MPO to comply with those requirements are discussed in the following sections.

#### Federal Regulations 23 CFR 450, 23 USC 134, and 49 USC 5303

Federal regulations require the urban transportation planning process to include activities to support the development and implementation of a long-range transportation plan, Metropolitan Transportation Plan (MTP) and a short-range transportation plan, the Transportation Improvement Program (TIP) and subsequent project development activities. While all of the activities programmed in the MPO's Budget Document, the Unified Planning Work Program (UPWP), contribute to those requirements, the following lists some of the more recent efforts:

- Program Support
- Public Involvement Activities including social media, meeting hosting and facilitation, and development of outreach materials
- Environmental Justice Analysis and Outreach
- Geographic Information Systems Activities including transportation-related data collection and continued refinement of the MPO's online mapping application, iMap
- Bicycle and Pedestrian Planning Studies and Activities including Bike to Work Day; support to Bicycle and Pedestrian Mobility Advisory Committees, Walk & Roll events, Street Skills classes, and Walkable Community Program and Safe Routes to Schools workshops and activities
- Traffic Safety Planning and Crash Data Analysis
- Air Quality Planning including the development of the transportation conformity document
- Congestion Management System/Process to include the Regional Thoroughfare Plan Study
- Support for the Transportation Improvement Program including public outreach and document development
- Support for the Metropolitan Transportation Plan including development of demographics, travel demand modeling, public outreach and document development

#### 23 CFR 450.306: Scope of the metropolitan planning process

The MPO's metropolitan transportation planning process is continuous, cooperative and comprehensive and provides for the consideration and implementation of projects, strategies and services that address the adopted ten planning factors listed below:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users:
- Increase the security of the transportation system for motorized and nonmotorized users:
- Increase accessibility and mobility of people and for freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- Promote efficient system management and operation;
- Emphasize the preservation of the existing transportation system.
- Improve the resiliency and reliability of the transportation system; and reduce or mitigate the stormwater impacts of surface transportation; and
- Enhance travel and tourism.

#### 23 CFR 450.308: Funding for transportation planning and unified planning work programs

The Unified Planning Work Program (UPWP) is developed cooperatively with the State, the Alamo Area MPO, recipients of FTA Section 5307 funds (VIA Metropolitan Transit) and participating local governments. Currently, the UPWP is developed and maintained on a two-year cycle.

#### 23 CFR 450.310: Metropolitan planning organization and redesignation

The Alamo Area MPO, a Transportation Management Area, continues to be designated by the Governor with the concurrence of the State and local elected officials. The Transportation Policy Board (i.e., the AAMPO) consists of elected officials and staff of general-purpose governments. The AAMPO was redesignated in April 2014 as a result of a boundary expansion and the assumption of transportation planning and programming activities in a portion of the San Marcos urbanized area located within Guadalupe County.

#### 23 CFR 450.312: Metropolitan planning area boundaries

The AAMPO boundary is in effect through an agreement between the AAMPO and the Governor.

#### 23 CFR 450.314: Metropolitan planning agreements

Responsibilities for transportation planning are cooperatively determined by the State, the AAMPO, VIA Metropolitan Transit, and participating local governments.

#### 23 CFR 450.316: Interested parties, participation, and consultation

The AAMPO utilizes a proactive public involvement process that provides complete information, timely public notice, full public access to key decisions, and supports early and continuing

involvement of the public in developing plans and TIPs. The AAMPO's public involvement process meets the necessary requirements and criteria. The AAMPO Public Participation Plan was updated in December 2017 to align with new federal requirements.

#### 23 CFR 450.322: Congestion management process in transportation management areas

The MPO's transportation planning process incorporates a functioning congestion management process.

#### 23 CFR 450.324: Development and content of the metropolitan transportation plan

The updated Metropolitan Transportation Plan (MTP), *Mobility 2050*, was approved on June 27, 2022. The recommendations within the MTP were formulated in accordance with the planning requirements of 23 U.S.C Section 135 and 49 U.S.C. Section 5323. The 2050 MTP covers all of Bexar, Comal, and Guadalupe counties and a portion of Kendall County.

#### 23 CFR 450.326: Development and content of the transportation improvement program

At least every two years, or as required by the State of Texas, AAMPO has prepared and adopted a Transportation Improvement Program (TIP) which:

- covers a period of not less than four years;
- includes realistic estimates of costs and revenues consistent with estimated funding available;
- is submitted to the Governor for approval, and to the Federal Transit Administration and the Federal Highway Administrator through the State;
- provides required information for all projects, including total project cost and year of expenditure project construction cost.

#### Section 134 of Title 23, U.S.C. and Section 5303 of Title 49, U.S.C.

These requirements are "...development of transportation systems embracing various modes of transportation in a manner which will efficiently maximize mobility of people and goods within and through urbanized areas and minimize transportation-related fuel consumption and air pollution. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the state, the metropolitan areas, and the nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems".

 Long range land use plans and overall development objectives are a functional responsibility of local governments. As long-range needs are evaluated, consideration is given to their relationship and impact on overall development objectives of local governments. (Geographic Information Systems Activities; Support for the Metropolitan Transportation Plan; Public Involvement Activities; Environmental Justice Analysis and Outreach)

- Social, economic, and environmental affects of transportation improvements are considered in environmental studies for individual projects. These factors were considered in the overall comparison of alternatives and the selection of projects in the MTP (Air quality planning; Geographic Information Systems Activities; Support for the Metropolitan Transportation Plan; Congestion Management System/Process; Public involvement activities; and Environmental Justice analysis and outreach).
- System performance is considered both in the evaluation of alternatives in the
  development of the long-range plan and in technical studies analyzing existing
  needs for highway, street, and/or transit improvements (support for the
  Metropolitan Transportation Plan; bicycle and pedestrian planning studies and
  activities; Congestion Management System/Process; traffic safety planning
  Studies; development and reporting of federally required performance
  measures, and other transportation data collection and management system
  activities, [iMap]).
- Alternative transportation systems management strategies are considered as an integral part of short-range planning efforts to address existing problems in both highway/street and transit (support for the Metropolitan Transportation Plan; Congestion Management System/Process; bicycle and pedestrian planning studies and activities; and traffic safety planning studies).
- Alternative investment strategies are considered in the economic/financial analysis of transportation improvements (support for the Metropolitan Transportation Plan; and Transportation Improvement Program Development).
- Plans are developed for modes utilizing travel forecasts based on the same demographic projections and the impact of modal recommendations on different modes is analyzed prior to a final recommendation being formulated (support for the Metropolitan Transportation Plan; VIA and City of San Antonio corridor planning; and air quality planning).
- Transportation planning and the development of transportation plans and programs have been done on a continuous basis since the mid-1960s (program Support; Support for the Metropolitan Transportation Plan; Tansportation Improvement Program Development; VIA, City of San Antonio, and other local governments corridor planning; public involvement activities; and Environmental Justice analysis and outreach).
- The process maintains a cooperative relationship between the agencies in planning through agency interaction and review at the technical committee levels and direct staff contacts (Program Support; Support for the Metropolitan Transportation Plan; and study oversight committees).
- The planning process is comprehensive through the use of local-government developed demographic forecasts and the consideration of overall development objectives (support for the Metropolitan Transportation Plan; VIA, City of San

Antonio, and other local governments Corridor Planning; and Air quality planning).

#### 42 U.S. Code 7504, 7506(c) and (d): The Clean Air Act, Section 174 and 176(c) and (d)

On July 25, 2018, under the 2015 National Ambient Air Quality Standards (NAAQS), the Environmental Protection Agency (EPA) designated Bexar County as marginal nonattainment for ozone. The effective date is September 24, 2018 and the attainment date is September 24, 2021. Additional counties fully or partially within the AAMPO study area (Comal, Guadalupe and Kendall), were designated unclassifiable/attainment.

With the nonattainment designation for Bexar County, transportation conformity is necessary to continue the implementation of certain types of projects within the nonattainment area. AAMPO is responsible for conducting transportation conformity on its financially constrained plans: the short range plan, the FY 2023-2026 Transportation Improvement Program, and its long range transportation plan, known as *Mobility 2050*, for certain plan milestone years: 2025, 2035, 2045, and 2050. Projects that are exempt from the transportation conformity determination are noted as such in each plan's project listings. The transportation conformity determination is a two-step process. First, the AAMPO Transportation Policy Board makes the initial transportation conformity determination (June 2022). Next, the Federal Highway Administration and the Federal Transit Administration make the final conformity determination at the federal level (on or about October 2022).

#### Title VI of the Civil Rights Act of 1964

Title VI requires that programs supported by Federal assistance do not discriminate and Federal grant recipients must prepare and follow a program which effects such assurances. A Title VI program has been developed and is updated as required.

#### Title VI Assurances Filed By State

These assurances apply to highway project funding in the same manner as the above section applies to transit projects. The Alamo Area MPO complies with the requirements of Title VI through the Title VI Program and the requirement that all subrecipients contractually comply with the requirement of Title VI. Assurances are filed by the State.

#### Section 1101(b) of FAST Act (Pub. L. 114-357) and 49 CFR Part 26

This section deals with the requirement that, except to the extent the Secretary of Transportation determines otherwise, not less than 10 percent of the funds authorized to be appropriated under other Titles of the FAST Act shall be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals. To comply with this requirement, AAMPO includes in all agreements with the agencies that receive funds from AAMPO, a clause requiring that Minority Business Enterprises have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds. AAMPO has established an overall disadvantaged business enterprise participation goal of 25% in all of its third-party contracting opportunities. AAMPO regularly exceeds this 25% goal. In addition, VIA (a recipient of funds from AAMPO) has an adopted Minority Owned/Women Owned Business participation goal for all Federal funds received by them which they normally achieve and/or exceed. While AAMPO has an adopted target, the AAMPO, in accordance with the contract between the AAMPO and TxDOT, is following TxDOT's process on participation goals.

#### 49 CFR Parts 27, 37 and 38 (Americans with Disabilities Act)

Part 27 requires compliance with all applicable requirements of the Americans with Disabilities Act of 1990 (ADA) including the regulations of the Department of Justice implementing Titles II and III of the ADA (28 CFR Parts 35 and 36) and the regulations of the Equal Employment Opportunity Commission implementing Title I of the ADA (29 CFR Part 1630). The AAMPO meetings are held in accessible facilities and meeting notices contain the following:

Meetings are accessible to persons with disabilities. To arrange for special assistance or an interpreter, please call (210)-227-8651 OR TDD 1-800-735-2989 (Relay Texas) at least five working days in advance.

Parts 37 and 38 require compliance with the accessible transportation and related provisions of Title II and III of the ADA. VIA Metropolitan Transit indicated full compliance with the ADA Paratransit Service Criteria in January 1995 (ADA Paratransit Plan - Third Annual Update). All of VIA's newly procured transit vehicles are accessible.

## 23 USC Section 324, Section 504 of the Rehabilitation Act of 1973 (29 USC 794 and 49 CFR part 27), 42 USC 6101, and 49 USC 5332

The Metropolitan Planning Organization is an Equal Employment Opportunity Employer and does not discriminate on the basis of race, color, national origin, religion, age, sex, or disability.

#### Conclusions and Recommendations

The transportation planning process for the Alamo Area metropolitan area is consistent with all applicable Federal requirements. It is therefore recommended the Transportation Policy Board approve the attached MPO Self-Certification for submittal to the State of Texas, the Federal Highway Administration and the Federal Transit Administration.

#### **MPO Self - Certification**

In accordance with 23 CFR Part 450.336 and 450.220 of the Infrastructure Investment and Jobs Act (IIJA Act), the Texas Department of Transportation, and the Alamo Area Metropolitan Planning Organization for the San Antonio urbanized area, hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- (1) 23 U. S. C. 134, 49 U.S.C. 5303, and this subpart (a);
- (2) In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1), and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23, U.S.C., regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

## Alamo Area Metropolitan Planning Organization Project Selection Procedures - FY 2023

In accordance with Section 134(h)(2) of Title 23 U.S.C. as amended and Section 8(h)(2) of 49 U.S.C. 1601 as amended, the Alamo Area Metropolitan Planning Organization (MPO) Transportation Policy Board hereby approves the following Project Selection Procedures:

- 1) The approved Transportation Improvement Program shall be utilized for programming projects within the metropolitan planning area.
- 2) Any project listed in the first year of the approved Transportation Improvement Program shall be considered in the first priority and may be implemented as soon as plans are completed and funds are appropriated.
- 3) Should any projects not be implementable from the first priority, then projects should be selected from the second, third or fourth years which shall be considered the second priority, and those projects may be implemented as plans are completed and funds are appropriated.
- 4) Any projects listed in the second, third or fourth year of the Transportation Improvement Program may be accelerated to the first year of the Transportation Improvement Program as soon as plans are complete, including right-of-way and utility adjustments, and funding is available.
- 5) Projects with "statewide" or "grouped" CSJs will be implemented as outlined in the MPO's Policy 3: Guidelines for Programming Projects in the Transportation Improvement Program.

This procedure was developed cooperatively between the Texas Department of Transportation, VIA Metropolitan Transit and the MPO, signed this the <u>27<sup>th</sup></u> day of <u>June 2022</u>.

## Lobbying Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies to the best of its knowledge and belief, that:

- No federal appropriated funds have been paid or will be paid by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee or Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification, of any federal contract, grant, loan, or cooperative agreement.
- If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with federal contracts, grants, loans, or cooperative agreements, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- 3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclosure accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

## Debarment Certification (Negotiated Contracts)

- 1. The Alamo Area Metropolitan Planning Organization (AAMPO) as Contractor certifies to the best of its knowledge and belief, that it and its principals:
  - Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;
  - b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public\* transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - c) Are not presently indicted or otherwise criminally or civilly charged by a governmental entity\* with commission of any of the offenses enumerated in paragraph 1. b) of this certification; and
  - d) Have not within a three-year period preceding this application/proposal had one or more public\* transactions terminated for cause or default.
- 2. Where the Contactor is unable to certify to any of the statements in this certification, such Contractor shall attach an explanation to this certification.

## United States Department of Transportation Standard Title VI/Non-Discrimination Assurances

#### DOT Order No. 1050.2A

The Alamo Area Metropolitan Planning Organization (herein referred to as the "Recipient"), HEREBY AGREES THAT, as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation (DOT), through the Federal Transit Administration (FTA) or the Federal Highway Administration (FHWA), is subject to and will comply with the following:

#### **Statutory/Regulatory Authorities**

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, or national origin);
- 49 C.F.R. Part 21 (entitled *Non-discrimination in Federally-Assisted Programs of the Department of Transportation Effectuation of Title VI of The Civil Rights Act of 1964*);
- 28 C.F.R. section 50.3 (U.S. Department of Justice Guidelines for Enforcement of Title VI of the Civil Rights Act of 1964);

The preceding statutory and regulatory cites hereinafter are referred to as the "Acts" and "Regulations," respectively.

### **General Assurances**

In accordance with the Acts, the Regulations, and other pertinent directives, circulars, policy, memoranda, and/or guidance, the Recipient hereby gives assurance that it will promptly take any measures necessary to ensure that:

"No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity," for which the Recipient receives Federal financial assistance from U. S. DOT, including the Federal Transit Administration or the Federal Highway Administration.

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI and other Nondiscrimination requirements (The Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these nondiscrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally-assisted.

#### **Specific Assurances**

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally-assisted U. S. DOT programs:

- 1. The Recipient agrees that each "activity," "facility," or "program," as defined in §§ 21.23 (b) and 21.23 (e) of 49 C.F.R. §21 will be (with regard to an "activity") facilitated, or will be (with regard to a "facility") operated, or will be (with regard to a "program") conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
- 2. The Recipient will insert the following notification in all solicitations for bids, Requests for Proposals for work, or material subject to the Acts and the Regulations made in connection with all USDOT programs and, in adapted form, in all proposals for negotiated agreements regardless of funding source:

"The Alamo Area Metropolitan Planning Organization, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award."

- 3. The Recipient will insert the clauses of Appendix A and E of this Assurance in every contract or agreement subject to the Acts and the Regulations.
- 4. The Recipient will insert the clauses of Appendix B of this Assurance, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.
- 5. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
- 6. That where the Recipient receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.
- 7. The Recipient will include the clauses set forth in Appendix C and Appendix D of this Assurance, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:
  - a) for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
  - b) for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.

- 8. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:
  - a) the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
  - b) the period during which the Recipient retains ownership or possession of the property.
- 9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, subgrantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
- 10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the Alamo Area Metropolitan Planning Organization also agrees to comply (and require any subrecipients, subgrantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing the USDOT access to records, accounts, documents, information, facilities, and staff. You also recognize that you must comply with any program or compliance reviews, and/or complaint investigations conducted by the USDOT. You must keep records, reports, and submit the material for review upon request to USDOT, or its designee in a timely, complete, and accurate way. Additionally, you must comply with all other reporting, data collection, and evaluation requirements, as prescribed by law or detailed in program guidance.

The Alamo Area Metropolitan Planning Organization gives this ASSURANCE in consideration of and for obtaining any Federal grants, loans, contracts, agreements, property, and/or discounts, or other Federal-aid and Federal financial assistance extended after the date hereof to the recipients by the USDOT under all Department of Transportation programs. This ASSURANCE is binding on Texas, other recipients, subrecipients, subgrantees, contractors, subcontractors and their subcontractors', transferees, successors in interest, and any other participants in all Department of Transportation programs. The person(s) signing below is authorized to sign this ASSURANCE on behalf of the Recipient.

| Isidro (Sid) Martinez, Executive Director     | Date |  |
|---|------|--|
| Alamo Area Metropolitan Planning Organization |      |  |

#### **APPENDIX A**

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees as follows:

- Compliance with Regulations: The contractor (hereinafter includes consultants) will comply with the
  Acts and the Regulations relative to Nondiscrimination in Federally-assisted programs of the U.S.
  Department of Transportation, the Federal Transit Administration, and the Federal Highway
  Administration, as they may be amended from time to time, which are herein incorporated by reference
  and made a part of this contract.
- 2. Nondiscrimination: The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Acts and the Regulations, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.
- 3. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Acts and the Regulations relative to Nondiscrimination on the grounds of race, color, or national origin.
- 4. Information and Reports: The contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Recipient, the Federal Transit Administration, or the Federal Highway Administration to be pertinent to ascertain compliance with such Acts, Regulations, and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to the Recipient, the Federal Transit Administration, or the Federal Highway Administration, as appropriate, and will set forth what efforts it has made to obtain the information.
- 5. Sanctions for Noncompliance: In the event of a contractor's noncompliance with the Nondiscrimination provisions of this contract, the Recipient will impose such contract sanctions as it or the Federal Transit Administration or the Federal Highway Administration may determine to be appropriate, including, but not limited to:
  - a) withholding payments to the contractor under the contract until the contractor complies; and/or
  - b) cancelling, terminating, or suspending a contract, in whole or in part.
- 6. Incorporation of Provisions: The contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as the Recipient, the Federal Transit Administration, or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request the Recipient to enter into any litigation to protect the interests of the Recipient. In addition, the contractor may request the United States to enter into the litigation to protect the interests of the United States.

#### **APPENDIX B**

#### **CLAUSES FOR DEEDS TRANSFERRING UNITED STATES PROPERTY**

The following clauses will be included in deeds effecting or recording the transfer of real property, structures, or improvements thereon, or granting interest therein from the United States pursuant to the provisions of Assurance 4:

NOW, THEREFORE, the U.S. Department of Transportation as authorized by law and upon the condition that the Alamo Area Metropolitan Planning Organization will accept title to the lands and maintain the project constructed thereon in accordance with all applicable federal statutes, the Regulations for the Administration of all Department of Transportation programs, and the policies and procedures prescribed by the Federal Transit Administration or the Federal Highway Administration of the U.S. Department of Transportation in accordance and in compliance with all requirements imposed by Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation pertaining to and effectuating the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. § 2000d to 2000d-4), does hereby remise, release, quitclaim and convey unto the Alamo Area Metropolitan Planning Organization all the right, title and interest of the U.S. Department of Transportation in and to said lands described in Exhibit A attached hereto and made a part hereof.

#### (HABENDUM CLAUSE)

TO HAVE AND TO HOLD said lands and interests therein unto the Alamo Area Metropolitan Planning Organization and its successors forever, subject, however, to the covenants, conditions, restrictions and reservations herein contained as follows, which will remain in effect for the period during which the real property or structures are used for a purpose for which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits and will be binding on the Alamo Area Metropolitan Planning Organization, its successors and assigns.

The Alamo Area Metropolitan Planning Organization, in consideration of the conveyance of said lands and interests in lands, does hereby covenant and agree as a covenant running with the land for itself, its successors and assigns, that (1) no person will on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination with regard to any facility located wholly or in part on, over, or under such lands hereby conveyed [,] [and]\* (2) that the Alamo Area Metropolitan Planning Organization will use the lands and interests in lands and interests in lands so conveyed, in compliance with all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation, Effectuation of Title VI of the Civil Rights Act of 1964, and as said Regulations and Acts may be amended[, and (3) that in the event of breach of any of the above-mentioned nondiscrimination conditions, the Department will have a right to enter or re-enter said lands and facilities on said land, and that above described land and facilities will thereon revert to and vest in and become the absolute property of the U.S. Department of Transportation and its assigns as such interest existed prior to this instruction].\*

(\*Reverter clause and related language to be used only when it is determined that such a clause is necessary in order to make clear the purpose of Title VI.)

#### **APPENDIX C**

## CLAUSES FOR TRANSFER OF REAL PROPERTY ACQUIRED OR IMPROVED UNDER THE ACTIVITY, FACILITY, OR PROGRAM

The following clauses will be included in deeds, licenses, leases, permits, or similar instruments entered into by the Recipient pursuant to the provisions of Assurance 7(a):

- A. The (grantee, lessee, permittee, etc. as appropriate) for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree [in the case of deeds and leases add "as a covenant running with the land"] that:
  - 1. In the event facilities are constructed, maintained, or otherwise operated on the property described in this (deed, license, lease, permit, etc.) for a purpose for which a U.S. Department of Transportation activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, the (grantee, licensee, lessee, permittee, etc.) will maintain and operate such facilities and services in compliance with all requirements imposed by the Acts and Regulations (as may be amended) such that no person on the grounds of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities.
- B. With respect to licenses, leases, permits, etc., in the event of breach of any of the above Nondiscrimination covenants, the Alamo Area Metropolitan Planning Organization will have the right to terminate the (lease, license, permit, etc.) and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the (lease, license, permit, etc.) had never been made or issued.\*
- C. With respect to a deed, in the event of breach of any of the above Nondiscrimination covenants, the Alamo Area Metropolitan Planning Organization will have the right to enter or re-enter the lands and facilities thereon, and the above described lands and facilities will there upon revert to and vest in and become the absolute property of the Alamo Area Metropolitan Planning Organization and its assigns.\*

(\*Reverter clause and related language to be used only when it is determined that such a clause is necessary in order to make clear the purpose of Title VI.)

#### APPENDIX D

## CLAUSES FOR CONSTRUCTION/USE/ACCESS TO REAL PROPERTY ACQUIRED UNDER THE ACTIVITY, FACILITY OR PROGRAM

The following clauses will be included in deeds, licenses, permits, or similar instruments/agreements entered into by the Recipient pursuant to the provisions of Assurance 7(b):

- A. The (grantee, licensee, permittee, etc., as appropriate) for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree (in the case of deeds and leases add, "as a covenant running with the land") that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishing of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, (3) that the (grantee, licensee, lessee, permittee, etc.) will use the premises in compliance with all other requirements imposed by or pursuant to the Acts and Regulations, as amended, set forth in this Assurance.
- B. With respect to (licenses, leases, permits, etc.), in the event of breach of any of the above Nondiscrimination covenants, the Alamo Area Metropolitan Planning Organization will have the right to terminate the (license, permit, etc., as appropriate) and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said (license, permit, etc., as appropriate) had never been made or issued.\*
- C. With respect to deeds, in the event of breach of any of the above Nondiscrimination covenants, the Alamo Area Metropolitan Planning Organization will there upon revert to and vest in and become the absolute property of the Alamo Area Metropolitan Planning Organization and its assigns.\*

(\*Reverter clause and related language to be used only when it is determined that such a clause is necessary in order to make clear the purpose of Title VI.)

#### **APPENDIX E**

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following nondiscrimination statutes and authorities; including but not limited to:

#### **Pertinent Nondiscrimination Authorities:**

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42)
- U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 U.S.C. § 4 71, Section 4 7123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, subrecipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of
  disability in the operation of public entities, public and private transportation systems, places of
  public accommodation, and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented
  by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;
- The Federal Aviation Administration's Nondiscrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures nondiscrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

## 6. Texas Department of Transportation's Highway Safety Improvement Program (HSIP) Presentation – TxDOT (Picha)

## **Purpose**

The purpose of this agenda item is to provide the committee with an update on the Highway Safety Improvement Program (HSIP).

#### Issue

TxDOT's Strategic Highway Safety Plan (SHSP) identifies emphasis areas and strategies that the HSIP will focus on to meet the state's objectives of reducing fatal and serious injury crashes. The program incorporates a data driven, strategic, results focused approach to improving safety on public roads. Additional information can be found at: <a href="https://www.txdot.gov/inside-txdot/forms-publications/publications/highway-safety.html">https://www.txdot.gov/inside-txdot/forms-publications/publications/highway-safety.html</a>

## **Action Requested**

For information and discussion only. No action is being requested.

## 7. Discussion and Appropriate Action on Roadway System Performance Measures and 2023 Target Setting – AAMPO (Hall)

## **Purpose**

The purpose of this agenda item is to receive a presentation on regional targets associated with roadway system performance – AAMPO Performance Measure 3 (PM3).

#### Issue

The U.S. Department of Transportation (USDOT) has implemented several roadway-related performance requirements created under MAP-21 and the FAST Act. In the coming months, the Transportation Policy Board is required to revisit and set regional targets for three of these performance areas:

- a. PM1: Safety
- b. PM2: Bridge / Pavement Condition
- c. PM3: Roadway System Performance.

These targets are recorded in the Metropolitan Transportation Plan and Transportation Improvement Program and can inform planning and funding decisions in the pursuit of regional and national goals. Statewide targets have been set by the Texas Department of Transportation.

The current item involves PM3, Roadway System Performance and the associated Congestion Management and Air Quality (CMAQ) performance measures. Roadway measures include interstate and non-interstate travel time reliability and National Highway System truck travel time reliability. Measures specific to CMAQ include annual hours of peak hour excessive delay, percent non-single occupancy vehicle travel, and total emissions reductions.

This item is being presented in June and action will be requested at the August 2022 meeting.

The presentation will be provided at the meeting.

#### **Action Requested**

Action is scheduled for August 2022.

8. Discussion and Appropriate Action on AAMPO's Metropolitan Transportation Plan (MTP), FY 2023-2026 Transportation Improvement Program (TIP), and 2023 Transportation Conformity Document – AAMPO (Jimenez/Hall)

Action on the Metropolitan Transportation Plan, *Mobility 2050* 

## **Purpose**

The purpose of this agenda item is for the Transportation Policy Board to adopt the Metropolitan Transportation Plan (MTP), *Mobility 2050*. This is the second step of AAMPO's two step approval process for MTP adoption.

#### Issue

In accordance with AAMPO's Policy 2, Public Participation Plan, the MTP is adopted in a two – step approval process with presentation one month and action the following month. This item was presented at the May 2022 TPB meeting and is now scheduled for action in June 2022.

To date AAMPO, in coordination with the Transportation Policy Board, citizens, and public agency staff, have completed the following tasks in support of the development of *Mobility 2050*:

- Revisited and updated the vision and goals;
- Developed a demographic scenario out to 2050;
- Addressed new planning requirements including adopting performance measures and targets;
- Developed a financially constrained, conforming list of projects to help address future transportation needs;
- Identified regional long-term unfunded transportation needs;
- Conducted public involvement which included three phases of public involvement plus providing public comment opportunity throughout the development of the Plan including opportunities for online comment; and
- Developed the draft document.

AAMPO's Technical Advisory Committee unanimously recommended adoption of the Metropolitan Transportation Plan, *Mobility 2050* at its meeting held on Friday, June 3, 2022.

The roadway and transit project lists along with the Executive Summary are attached for review. The projects lists are subject to refinements before TPB action. To view the full draft plan, visit <a href="www.AlamoAreaMPO.org/YourMove">www.AlamoAreaMPO.org/YourMove</a>. A presentation on the plan and projects will be provided at the meeting.

### **Action Requested**

Motion to adopt the Metropolitan Transportation Plan, *Mobility* 2050.

## Mobility 2050 Executive Summary

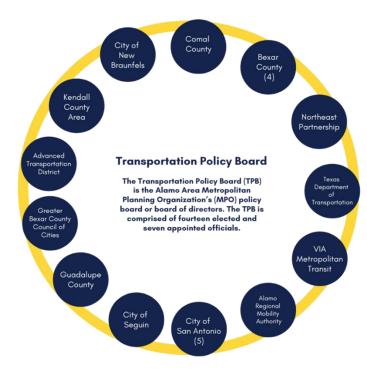

As the Alamo Area adds an additional 1.8 million people by 2050 and forecasted to gain only 1,000 additional roadway lanes miles, policy makers must make important decisions about when and where to invest transportation funding in the region. The Metropolitan Transportation Plan (MTP), Mobility 2050, is a federally required document and is typically updated every four years. Mobility 2050 is being updated at the three-year mark to better align with the Alamo Area Metropolitan Plan's other federally required documents. It includes all modes of transportation and is financially constrained. Mobility 2050 is a living document and sets forth a vision and the policies guiding these decisions over the next four years and identifies the challenges we face in the coming decades.

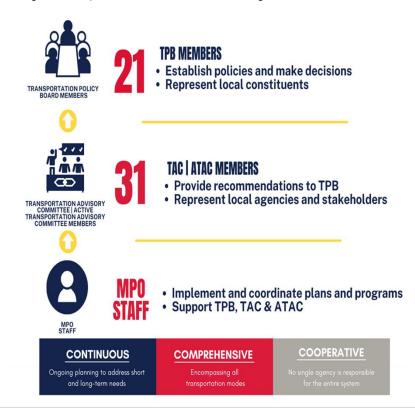

### 1.1 Background

Planning for the future transportation needs of the Alamo Area region requires a comprehensive look at the current transportation system, future population and employment, and the anticipated available transportation funding for the area. Although this seems like a simple exercise, there is extensive work involved in improving the region's transportation infrastructure. The metropolitan area's economy and environment depend heavily on the condition and efficient performance of the regional transportation system. Recognizing the mobility needs of the community and addressing those needs will lead to improvements in the economy and quality of life. This update to the Metropolitan Transportation Plan (MTP), Mobility 2050, takes steps in that direction. An

important part of the process is public involvement. Public involvement is necessary to ensure that transportation decisions are not made independently and that Federal tax dollars are used in accordance with legitimate public needs and desires.

In August 1977, the Governor of Texas designated the San Antonio – Bexar County Transportation

Steering Committee as the Metropolitan Planning Organization for San Antonio and Bexar County (SA-BC MPO). This organization was intended to be the forum for cooperative transportation planning and decision-making by officials of the urban area's local governments and transportation agencies. In 2013, the SA-BC MPO expanded its boundaries to include all of Bexar, Comal, Guadalupe counties and a portion of Kendall County that includes Boerne, and became known as the Alamo Area MPO. The AAMPO Transportation Policy Board (TPB) is comprised of 21 elected and appointed officials representing the following entities: Bexar, Comal, and Guadalupe counties and a portion of Kendall

County; Cities of New Braunfels, San Antonio, and Seguin; the Advanced Transportation District, the Alamo Regional Mobility Authority, Greater Bexar County Council of Cities, Northeast Partnership, the Texas Department of Transportation, and VIA Metropolitan Transit. See diagram above for specific representation on AAMPO's Transportation Policy Board. The board, with committee and agency support, is responsible for ensuring existing and future state and federal expenditures for transportation projects and programs are based on a continuous, comprehensive, and cooperative ("3-C") planning process.

### 1.2 Mobility 2050 Vision and Goals

The graphic below represents AAMPO's Transportation Policy Board vision and goals. These were developed through a facilitated process with the Board and with input from the public and other stakeholders. The vision and goals reflect the diversity of the Alamo region and AAMPO's aspirations for the future of transportation.

## **Mobility 2050 Vision**

The 2050 Metropolitan Transportation Plan will meet the growing needs of residents, visitors, and commerce by:

## 1.3 Federal Legislation History and the Infrastructure Investment and Jobs Act

The signing of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) on December 18, marked a significant change in the planning and development of metropolitan transportation systems. In its Declaration of Policy, ISTEA mandated "a National Intermodal Transportation System that is economically efficient and environmentally sound...and will move people and goods in an energy efficient manner." Specifically, "the National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner . . . to reduce energy consumption and air pollution while promoting economic development . . ."

On June 9, 1998, the Transportation Equity Act for the 21st Century (TEA-21) was enacted, authorizing highway, highway safety, transit and other surface transportation programs until 2004. TEA-21 built on the initiatives established in ISTEA. It combined the continuation and improvement of current programs with new initiatives to meet the challenges of improving safety as traffic continues to increase at record levels, protecting and enhancing communities and the natural environment, and advancing America's economic growth and competitiveness domestically and internationally through efficient and flexible transportation.

To further build and strengthen TEA-21 legislation, the President signed the **Safe**, **Accountable**, **Flexible**, **and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)** on August 10, 2005. SAFETEA-LU focused on several of the programs and initiatives put in place under TEA-21 and continued the authorization of highway, transit and other surface transportation programs. SAFETEA-LU was the largest transportation authorization bill passed into law and continued the focus on **eight planning factors** (see below).

Following SAFETEA-LU, Moving Ahead for Progress in the 21st Century Act (MAP-21) was signed into law on July 6, 2012 and took effect on October 1, 2012. MAP-21 focuses on a streamlined and performance-based surface transportation program and builds on many of the highway, transit, bike, and pedestrian programs and policies established in 1991. MAP-21 was a two-year bill. Thereafter, on December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law. The FAST Act was the first law enacted in over ten years that provided long-term funding certainty for surface transportation projects, meaning MPOs, States and local governments can better plan for critical transportation improvements, including larger highway and transit infrastructure projects.

The FAST Act maintained the current funding structures and funding shares between highways and transit. However, some of the key differences in it are outlined below.

The FAST Act:

- Provides a dedicated source of federal dollars for freight projects. It establishes both formula
  and discretionary grant programs to fund transportation projects that directly benefit the
  movement of freight.
- Supports an outcome-oriented, performance-based approach to the evaluation of proposed transportation projects. It also continues the performance management approach adopted by MAP-21 and requires the US Department of Transportation (USDOT) to begin developing new tools (and improve existing tools) to better manage project performance within one year of enactment.

Under the FAST Act, MPOs are now required to address ten planning factors, including the previous eight under SAFETEA-LU. The ten planning factors are listed below.

 Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.

- Increase the safety of the transportation system for motorized and non-motorized users.
- Increase the security of the transportation system for motorized and non-motorized users.
- Increase the accessibility and mobility of people and for freight.
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- Enhance the integration and connectivity of the transportation system, across and between modes, people and freight.
- Promote efficient system management and operation.
- Emphasize the preservation of the existing transportation system.
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation.
- Enhance travel and tourism.

The FAST Act was in place for six years. In November 2021, the Infrastructure Investment and Jobs Act (IIJA) was signed into law. The Act contains provisions to continue all FAST Act highway programs along with new funding opportunities for projects and programs that meet the prescribed requirements. This Act is a once-in-a-generation investment in infrastructure intended to make the United States more competitive in the world-wide arena by creating better jobs and making the economy more sustainable, resilient, and equitable. It will provide the largest investment in US history for public transit, passenger rail, bridge reconstruction and development, clean drinking water and wastewater infrastructure, electric vehicle (EV) infrastructure, and access to reliable high-speed internet.

For highway programs, the provisions focus on safety, bridges, climate change, resilience, and project delivery. It includes more funding opportunities for local governments and other non-traditional entities, such as non-profits. The following are examples of programs specific to MPOs:

- Safe Streets and Roads for All
- Promoting Resilient Operations for Transformative, Efficient and Cost Saving (PROTECT) Grants
- Charging and Fueling Infrastructure
- Congestion Relief
- Bridge Investment

- Reconnecting Communities
- Nationally Significant Freight and Highway Projects (INFRA)
- National Infrastructure Project Assistance (Mega-projects)
- Local and Regional Project Assistance

Currently, as part of the FAST Act and continued with the IIJA, AAMPO projects are awarded funds through the Surface Transportation Block Grant (STBG), Transportation Alternatives Program (TA), and Congestion Mitigation and Air Quality Improvement Program (CMAQ). The IIJA creates new programs for additional projects including Safe Streets for All (Road to Zero and Vision Zero initiatives), Wildlife Crossings Pilots, and increasing safe and accessible transportation options. Below is summary of eligible projects under the FAST Act and additions under the IIJA.

| AAMPO ELIGIBLE FEDERAL FUNDING OPPORTUNITIES (FAST ACT AND IIJA)   |  |  |
|--|--|--|
| Program  | Requirement Highlights   |  |
| Surface Transportation Block Grant (STBG) – (IIJA Section 11109) Most flexible in terms of project selection criteria;                   | <ul> <li>FAST: Preserve and improve condition and performance on any Federal-aid highway, bridge on any public road, pedestrian and bicycle infrastructure, capital transit projects;</li> <li>IIJA: EV charging infrastructure, protective features to enhance resilience, and wildlife crossing projects; adds low water crossing bridges to eligible bridges;</li> </ul>  |  |
| Transportation Alternatives Program (TA) (IIJA<br>Section 11109)   | <ul><li>FAST: safe routes to schools</li><li>IIJA: vulnerable road user safety assessments</li></ul>   |  |
| Congestion Mitigation and Air Quality Improvement Program (CMAQ) — (IIJA Section 11115) Limited to areas of nonattainment (Bexar County) | <ul> <li>FAST: Designed to reduce traffic congestion and improve air quality. Transit, EV and natural gas infrastructure, and active transportation projects.</li> <li>IIJA: Shared micromobility (bikeshare, shared scooters) programs, expands diesel vehicle replacement program, purchases of medium//heavy-duty zero emission vehicles and related equipment</li> </ul> |  |
| Safe Streets and Roads for All Grants (IIJA Section 24112)   | <ul> <li>IIJA (New) – Initiatives that prevent transportation-related death and serious injury on roads and streets, comprehensive safety action plans and associated implementation of these projects and strategies</li> <li>Available to local governments</li> </ul>   |  |
| Wildlife Crossings Pilot Grants (IIJA Section 11123)   | IIJA (New) – Projects that seek to reduce the<br>number of wildlife-vehicle collisions and<br>improve habitat connectivity   |  |
| Increasing Safe and Accessible Transportation Options (IIJA Section 11206)   | <ul> <li>IIJA (New) – Defines Complete Streets<br/>standards and policies, requires planning<br/>activities related to Complete Streets or<br/>multimodal travel.</li> </ul>   |  |

New MPO eligible grant programs under the IIJA include PROTECT grants, Charging and Fueling Infrastructure, Congestion Relief, Bridge Investment, Reconnecting Communities Pilots, Strategic Innovation for Revenue Collection, and Mega-Projects. Below is a summary of these programs. Additional information on IIJA requirements and programs is forthcoming as the US government finalizes the program criteria and funding regulations. The Act also requires the Texas Department of Transportation (TxDOT) to develop strategies, in coordination with MPOs, related to carbon reduction and EV infrastructure deployment. As additional guidance is developed and disseminated to MPOs, AAMPO will continue to review and determine the impact on regional planning and local government and non-profit efforts.

| NEW AAMPO ELIGIBLE FEDERAL FUNDING OPPORTUNITIES (IIJA) |   |  |  |
|---|---|--|--|
| Program   | Requirement Highlights  |  |  |
| PROTECT Grants (IIJA Section 11405)                     | Planning, resilience improvements, community resilience and evacuation routes |  |  |

| Charging and Fueling Infrastructure (IIJA Section 11401)         | <ul> <li>Efforts can include highway, transit, intercity passenger rail and port facilities; resiliency planning activities and associated construction</li> <li>Increased funding opportunities for MPOs with a resiliency improvement plan incorporated in the long-range transportation plan</li> <li>Available to local governments</li> <li>Deployment of EV charging and alternative fueling infrastructure</li> <li>Available to local governments</li> </ul> |
|--|--|
| Congestion Relief (IIJA Section 11404)                           | <ul> <li>Planning, design, implementation, and construction activities that advance innovative, integrated, and multimodal solutions related to the economic and environmental costs of congestion.</li> <li>Examples: HOV lanes, mobility services, carpooling programs, programs that encourage travel during nonpeak hours</li> <li>Available to local governments</li> </ul>   |
| Bridge Investment Grants (IIJA Section 11118)                    | <ul> <li>Improve bridge and culvert condition, safety, efficiency, and reliability</li> <li>Available to local governments</li> </ul>  |
| Reconnecting Communities Pilot (IIJA Section 11509)              | <ul> <li>Remove, retrofit, or mitigate transportation facilities that create barriers to community connectivity including mobility, access, or economic development</li> <li>Available to local governments</li> </ul>   |
| Strategic Innovation for Revenue Collection (IIJA Section 13001) | <ul> <li>Test feasibility of road-usage fees and other<br/>alternative revenue tools</li> <li>Available to local governments</li> </ul>  |
| INFRA - Mega-Projects Grants (IIJA Section 21201)                | <ul> <li>Single or multi-year grants for<br/>highway/bridge projects, intermodal freight<br/>and rail, rail-highway grade separation or<br/>elimination, intercity passenger rail, and other<br/>public transportation projects.</li> <li>Available to local governments</li> </ul>  |

## 1.4 Components of the Plan

As previously noted, there are several factors to consider when developing a long-range transportation plan. These factors and the relationships between them make up the components of *Mobility 2050*. Such factors include the following:

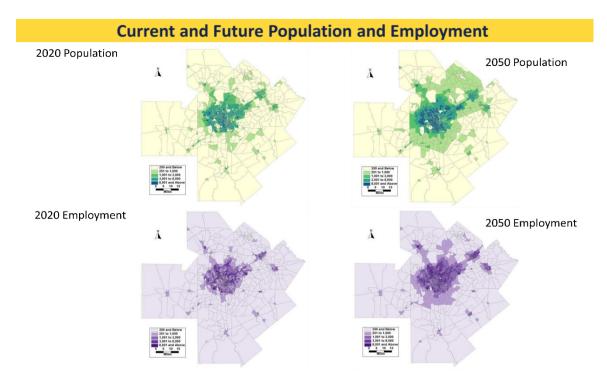

- Current and future population and employment demographics;
- Consideration for the continued development of emerging technologies;
- Inclusion of all transportation modes
- The congestion mitigation process and plan
- Performance measures and targets
- Environmental concerns and mitigation strategies

- Public involvement phases and outcomes
- Fiscal constraint
- Funded and unfunded projects and program lists

Below describes each of these factors in more detail and how they are incorporated into the plan.

#### 1.4.1 Demographics

The basis of any effective planning effort rests primarily on a determination of the area's base year demographics (population, household size, employment, household income, and land use) and future demographic projections. AAMPO used 2020 as the base year and 2050 for the forecast year for this MTP update. Population is forecast to increase by nearly 1.8 million people (to 4.2 million people) by 2050; employment is forecast to increase by over 1 million (to over 2.5 million) in the region. The images below show the projected growth trends for population and employment. As illustrated, the immense growth along I-35 and in the northeast portion of the AAMPO region will continue.

#### 1.4.2 Emerging Technologies

Transportation is rapidly being changed by new technologies. Over the next 20+ years, technology and automation will make significant improvements in roadway capacity without the addition of pavement, generate better travel time reliability, and assist with addressing safety challenges. The extent that technology impacts will be felt will depend on decisions made by both public and private entities. It will be of the upmost importance that these entities coordinate and collaborate to avoid too much disruption to users and the overall network. AAMPO seeks to be integral to the advancement of transportation technology in the region and apply the 3-C approach to encourage informed decision-making, and convene and facilitate all interested parties. The table below outlines the mobility technologies currently available in the AAMPO region and those anticipated to arrive within the next two decades, if not sooner.

|   | Existing  |   | Anticipated  |
|---|---|---|--|
| • | Electric vehicles (60,500 registered in TX as of June 2021*)  | • | Autonomous and Connected Vehicles (passenger, transit, and freight |
| • | 5G, or the fifth generation of cellular mobile communications |   | vehicles*) Freight truck parking applications*                     |
| • | Increasingly smarter handheld                                 | • | Freight shuttle systems*   |
|   | devices/phones  | • | Autonomous robotic delivery services*                              |
| • | Collision warning systems                                     | • | Enhanced traffic signal control                                    |
| • | Expanded traveler information systems                         |   | technology   |
| • | More mobility/navigation apps                                 | • | Increases in rideshare and car sharing                             |
| • | Smart cards and cash app payment systems                      | • | Low cost, same and next day drone delivery*                        |
|   |   | • | More alternatively fueled vehicles                                 |
|   |   | • | Trackless transit vehicles   |
|   |   | • | Wireless traffic data collection and management*                   |

Items listed with an asterisk (\*) were conference topics at TXDOT's annual Transportation Forum held in February 2022.

### 1.4.3 Transportation Modes

Regional leaders understand the importance of creating and maintaining a safe multimodal transportation system. With the anticipated growth, transportation planners are looking at ways to make non-traditional transportation modes more convenient and accessible, safer, and more reliable. Added capacity on roadways and highways remains an approach for mitigating congestion levels. However, AAMPO along with other transportation agencies continue to explore how to successfully integrate multiple modes into the existing infrastructure network. Below are brief descriptions of the modes, the advancements accomplished over the past three years, and potential future directions.

#### 1.4.3.1 Active Transportation

In the last five years the region has continued to see significant expansion of bicycle and pedestrian plans, projects and programs. Bicycling and walking are cost effective, energy efficient, clean, and healthy ways to travel. With the growing concerns of congestion, air quality and the public interest in promoting non-traditional transportation modes, active transportation is critical to achieving the region's goals.

In 2009, AAMPO adopted a Complete Streets Policy, aimed at ensuring people of all ages and abilities are able to use public rights of way and roads safely and comfortably, regardless of mode. The Complete Streets policy advances the concept that public rights of way can be transformed to accommodate a variety of modes including bikes, pedestrians, micromobility, automobiles, and transit. In support of advancing this policy, a variety of plans, programs, and studies will be continued, initiated, and implemented over the next four years. Below is a list of programs sponsored and supported by AAMPO to promote active transportation.

|                   | AAMPO PROGRAMS                                     |   |   |  |  |  |  |  |  |
|-------------------|--|---|---|--|--|--|--|--|--|
| Program           | Audience   | Description   | Mode<br>Promoted  |  |  |  |  |  |  |
| Alamo<br>Commutes | Commuters, small<br>businesses, large<br>employers | Provides commuters and employers with the information, tools, and resources they need to make more sustainable commuting choices. The program goal is to decrease traffic congestion, improve air quality, and create a better quality of life in the Alamo Area. | Carpool, Public<br>Transportation,<br>Car/Bike Share,<br>Bike, Walk,<br>Micromobility |  |  |  |  |  |  |

| Street Skills<br>Program   | Adults and mature teens  | Teaches participants the rules of the road including bicycle safety tips and best practices for handling potentially dangerous situations. To further encourage safety while cycling, attendees are given a free helmet and set of bike lights.  | Bike                         |
|--|--|--|------------------------------|
| League of<br>American<br>Bicyclists'<br>Bicycle<br>Friendly<br>Business<br>Program | Employers and<br>business owners   | A nationwide recognition program for employers' efforts to encourage a more welcoming atmosphere for bicycling employees, customers and the community. AAMPO's Alamo Commutes program promotes employer-supported bicycle commuting to work. AAMPO's Active Transportation Planner works with businesses to make them more bicycle community friendly.   | Bike                         |
| Community<br>Outreach<br>Events  | Residents and the<br>general public  | AAMPO staff produce and attend various events to distribute educational materials related to bicycling, walking, safety, and air quality. On average, staff attends over 20 community events annually reaching thousands of Alamo Area residents.  | Bike, Walk,<br>Micromobility |
| Open Streets<br>Events   | Residents and the general public   | Events that allow people of all ages, abilities, and economic backgrounds to take to the streets using various modes to replace automobiles. AAMPO plays an active role in coordinating, participating, and promoting and open streets events in the region, such as Síclovia in San Antonio, CycloViva in New Braunfels, and Movin' on Main in Schertz. | Bike, Walk,<br>Micromobility |
| Bicycle<br>Rodeos &<br>Safety Talks  | School age<br>children, parents,<br>and educators                                  | Provides support for area school's bicycle rodeos by distributing and helping children properly fit helmets, and sharing safety information with parents, teachers, and students. MPO staff also provide bicycle and pedestrian safety talks to schools and other youth groups.  | Bike, Walk                   |
| Safe Routes<br>to School<br>Program &<br>Walk to<br>School Day                     | School age<br>children, parents,<br>and educators                                  | AAMPO collaborates with local and regional partners to promote International Walk to School Day each October and to foster more Safe Routes to School programming in the region.   | Walk                         |
| National<br>Bike Month   | Residents,<br>employers,<br>learning<br>institutions, and<br>the general<br>public | National Bike Month is in May and provides a chance to showcase the benefits of bicycling and encourage more people to do it. AAMPO promotes, produces, and participates in annual events like Bike to Work Day, Bike & Roll to School Day, the Bike Beat festival and Street Skills classes.  | Bike                         |
| Walkable<br>Community<br>Workshop  | Neighborhoods,<br>community  | A technical assistance program that works with various groups to identify infrastructure   | Bike, Walk                   |

| Technical<br>Assistance<br>Program |
|------------------------------------|
|------------------------------------|

Alamo Commutes, AAMPO's free program to provide tools and information to equip and empower commuters who desire multimodal daily mobility alternatives, will continue to serve the Alamo region. AAMPO will also continue to leverage the committee structure to coordinate efforts between state and local partners as well as explore ways to integrate mobility options. Additionally, Section 11206 of the IIJA requires MPO's to conduct activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities. This requirement legitimizes what AAMPO has been doing for years. As a result, additional and new funding may be flowing to AAMPO's active transportation programs, plans, and projects. Local governments are also taking the lead. The City of New Braunfels and the City of San Antonio have bond initiatives that will be going to voters in the very near future. Both of these bond programs have elements to improve multimodal connections and mobility as well as drainage and stormwater management. Additionally, The University of Texas at San Antonio (UTSA) will be implementing a program, partially funded through AAMPO's CMAQ funding source, to advance transportation equity for all.

| Rethink your commute. | Pa                                      | Participation and Impact 2019 - 2021 |                        |                                 |                        |  |  |  |  |  |  |

#### 1.4.3.2 Public Transportation

VIA Metropolitan Transit (VIA) and the Alamo Area Council of Governments' (AACOG) Alamo Regional Transit (ART) are the two public transportation service providers in the Alamo Area. AACOG's ART serves 12 rural counties including Comal, Guadalupe, and Kendall in the AAMPO study area. ART provides demand response (passengers call to schedule trips), curb-to-curb, and door-to-door service. As part of their services, ART has two deviated fixed-routes. With this type of service, a bus or van stops at fixed points and keeps to a timetable but can deviate its course between two stops to go to a specific location for a pre-scheduled request. Connect Seguin was the first of this type of service connecting major destinations in Seguin and Guadalupe County. It is funded with City of Seguin general funds and ART local funds. In October 2020, Cowboy Connect was launched as the second of ART's deviated fixed-route services. It connects the communities of Pleasanton, Jourdanton, and Poteet in Atascosa County. Services are available Monday through Friday from 7 a.m. to 6 p.m. Additionally, ART and VIA work together to provide demand-response services to the Cities of New Braunfels, Cibolo, Marion, Schertz, Selma, and Garden Ridge as well as the McQueeney community. Services for these areas is funded with VIA urban

transit funding and matched by local funds from ART and the areas served. In 2021, ART provided 104, 591 one-way trips.

VIA serves the greater Bexar County area including San Antonio, Sandy Oaks, Elmendorf, St. Hedwig, China Grove, Kirby, Terrell Hills, Alamo Heights, Olmos Park, Balcones Heights, Leon Valley, Castle Hills, Converse, and Shavano Park. Services include bus service with a downtown circulator, paratransit service for riders with disabilities, Prímo high frequency service, VIA Link ride-sharing service, vanpool service for commuters, and special event Park & Ride service. VIA operates and maintains 14 transit centers with 10 located in the area's top 10 major activity centers, 6,449 bus stops, 501 buses (4 out of 5 uses compressed natural gas), and 139 VIATrans vans. VIA's service area is 1,212 square miles, which covers 97% of Bexar County.

Prímo is VIA's rapid bus high-capacity service. It is designed to serve fewer stops and, by having traffic signal priority, faster travel speeds. Enhanced stops feature real-time arrival information displays, art panels created by local and national artists, and free Wi-Fi to enhance a rider's experience.

In May 2019, VIA launched its VIA Link program to provide mobility-on-demand transportation. Similar to Uber or Lyft ridesharing services, customers in the Northeast and Northwest VIA Service Zones may use a convenient app or make a phone call to request a VIA Link passenger van to meet them at a "virtual stop" for a shared ride that can begin and end anywhere within the zone. Customers may also connect to VIA bus service to continue their trip to bus stops across the VIA service area. The table below represents public transportation improvements and services added to the Alamo Area since the last MTP update.

| Alamo Ai                 | Alamo Area Public Transportation Improvements (2019-2021)  |  |  |  |  |  |  |  |  |
|--------------------------|--|--|--|--|--|--|--|--|--|
| Transportation Lead      | Projects   | Highlights (Projects and programs listed below are representative and not comprehensive.)  |  |  |  |  |  |  |  |
| AACOG – ART              | Cowboy Connect<br>(October 2020)   | ART's second deviated fixed-route services Connects Pleasanton, Jourdanton, and Poteet in Atascosa County  |  |  |  |  |  |  |  |
| AACOG – ART              | General services: demand response (passengers call to schedule trips), curb-to-curb, and door-to-door. | In 2021, ART provided 104, 591 one-way trips including Cowboy Connect and Connect Seguin.  |  |  |  |  |  |  |  |
| VIA Metropolitan Transit | Fixed Route Bus<br>and Primo Services  | Passenger trips in 2021 totaled 23,032,608<br>Route 102 Prímo Military<br>Route 103 Primo Zarzamora  |  |  |  |  |  |  |  |
| VIA Metropolitan Transit | VIALink On<br>Demand   | Passenger trips in 2021 totaled 80,539 Express Sandy Oaks Pilot  |  |  |  |  |  |  |  |
| VIA Metropolitan Transit | VIATrans Paratrasit<br>Service   | Passenger trips in 2021 totaled 570,611  |  |  |  |  |  |  |  |
| VIA Metropolitan Transit | Facility<br>Improvements   | Brooks Transit Center Stone Oak Park & Ride and HOV connection Bus shelter improvements: 393 (142 provided by COSA, TxDOT, Bexar County, Suburban Cities, and other private entities) Accessibility improvements: 41 (35 provided by COSA, TxDOT, Bexar County, Suburban Cities, and other private entities) |  |  |  |  |  |  |  |

The future of transit is bright in the Alamo region. As AAMPO continues to assist local public transportation providers to advance service and facility improvements, it also supports regional transportation partners in exploring the potential of transit. Specifically, AAMPO sponsored a City of New Braunfels Transit Study that was completed in 2021. The City of New Braunfels is reviewing the recommendations and considering initial steps for implementation. The Alamo Regional Transit (ART) is exploring the opportunities and waiting for additional IIJA guidance to expanding services. VIA Metropolitan Transit (VIA) has advanced its Vison 2040 efforts and, as mentioned in the Alamo Area Today section, is continuing to retrofit its fleet and improve facilities. VIA's full fleet conversion will be complete in 2025. Beginning in 2026, VIA will receive more local funding and anticipates new federal funding sources through the IIJA programs and grants the new local funding stream is part of VIA's Keep San Antonio Moving plan. The plan has three main objectives: redesigning the system, improving services, and refocusing the agency's mission. Keep San Antonio moving is the next big step toward advancing the VISION 2040 plan. In November 2020, voters approved reallocating and dedicating an additional 1/8-cent of sales tax to the Advanced Transportation District (ATD), in support of VIA's Keep San Antonio Moving projects. The ATD purpose is to develop a regional multimodal vision and strategic plan for managed and/or transit priority lanes on high capacity and express bus route corridors. The ATD will begin collecting a total 3/8th of 1 cent in sales tax in 2026. Work is already underway on several key initiatives of the Keep San Antonio Moving program with projects focused on: shorter waits, faster connections, reliable service, and modern and accessible transit options.

#### 1.4.3.3 Roadway System

As population and employment continue to grow in the San Antonio metropolitan area, a greater burden will be placed on the transportation system. To accommodate traffic increases on the roadway system, additional travel lanes, including High Occupancy Vehicle (HOV) lanes, and operational improvements will be needed. In addition to congestion levels, factors considered when developing the future year roadway network included impacts to neighborhoods, acceptability by the public, environmental concerns, and fiscal constraint.

The proposed roadway system improvements in the long-range plan are limited by the amount of funding available, or revenue that can be reasonably expected over the 25-year life of the MTP. While more improvements are necessary than funding available, the roadway projects selected address the most congested areas of the AAMPO study area. Therefore, the following roadways are anticipated for improvements beyond the 2023-2026 Transportation Improvement Program (TIP) projects:

- Loop 1604
- Interstate 35
- State Highway (SH)16/Bandera Road
- Farm to Market (FM) 3351
- State Highway (SH) 123
- Interstate 10
- State Highway (SH) 46

Even with these anticipated investments made over the next twenty-five years in transportation infrastructure, regional traffic congestion is expected to increase. Transportation demand management strategies will become increasingly important and, when implemented, can have a positive effect on air quality, growth, land use, travel patterns and travel behavior.

#### 1.4.3.4 Freight

The FAST Act established a national policy of maintaining and improving the condition and performance of a National Multimodal Freight Network (NMFN). Goals related to the policy include network condition,

safety, security, efficiency, productivity, resiliency, and reliability as well as reducing the adverse environmental impacts of freight movement. Federal freight funding opportunities are tied directly to states developing a state freight plan that meets these goals. Therefore, TxDOT leads the effort for improved highway freight mobility in the Alamo Area with participation from AAMPO and other local transportation agencies and freight service providers. The Texas Freight Mobility Plan (TFMP) was adopted in 2018. The TFMP goal areas, which align with the NMFN goals, are the basis for additional efforts and include:

Safety
Asset preservation
Mobility and Reliability
Multimodal Connectivity

Stewardship
Customer Service
Sustainable Funding
Economic Competitiveness

| Critical Urban Freight Corridors in the AAMPO Study Area |                              |               |                     |  |  |  |
|--|------------------------------|---------------|---------------------|--|--|--|
| Route  | From                         | То            | Centerline<br>Miles |  |  |  |
| Loop 1604 North  | IH 10 West                   | IH 10 East    | 25.69               |  |  |  |
| Loop 410 North   | IH 35 North                  | Loop 410 NE   | 1.83                |  |  |  |
| Rittiman Road  | Loop 410<br>North            | FM 78         | 2.58                |  |  |  |
| Foster Road  | FM 78                        | IH 10 East    | 2.46                |  |  |  |
| Frio City Road   | General<br>Hudnell Dr.       | Brazos Street | 2.40                |  |  |  |
| SH 46  | SH 46 IH 35 North IH 10 East |               |                     |  |  |  |
|  | 45.16                        |               |                     |  |  |  |

According to the TFMP, The Texas Multimodal Freight Network (highway, rail, water, and air cargo) is forecasted to increase to 4.0 billion tons with a value of \$7.5 trillion by 2045. The change represents 79% growth in tonnage over time with an annual growth rate of 2% and 159% increase in value over the next two decades with an annual increase in value of 3.3%.

Locally, TxDOT is working with Alamo Area transportation partners to advance the TFMP effort and the NMFN goals. Specifically, TxDOT is leading efforts to reduce congestion and enhance safety related to grade-separations at railroad and roadway intersections, looking to develop recommendations from the Truck Parking Study and the Texas Freight Network Technology and Operations Plan. AAMPO planners will continue to participate in the various TxDOT statewide-supported committees and work groups, as well as with the Texas Innovation Alliance's Freight and Logistics Community of Practice, exploring multimodal improvements and identifying potential projects.

Moving forward, AAMPO will be conducting a regional freight planning study during fiscal years 2022 and 2023. This study will take into account the statewide efforts, explore local existing conditions, and make recommendations for capital, operational, and logistical improvements.

#### 1.5 Congestion Management Process

Although the San Antonio region is not considered one of the most congested areas in the country, it has been identified as having one of the fastest growing congestion levels. Congestion is a major contributor to air quality concerns and overall efficiency of the area wide transportation system. Since Bexar County has been designated non-attainment for ozone, congestion management strategies and transportation control measures must be applied effectively, relieving congestion throughout the region.

The MPO's Congestion Management Process outlines eight specific congestion management objectives that work toward the Mobility 2050 goal to increase the efficiency of the transportation system and manage traffic congestion. These include:

- Maintain congested VMT per capita through 2022
- Maintain current level of congested hours through 2022
- At least 65% of the Interstate should be reliable by 2022
- At least 45% of the Non-Interstate NHS should be reliable by 2022
- Average reliability of the transit system should be 85% by 2040
- Double the population and employment within a quarter-mile access of frequent transit by 2040
- Maintain 60 minutes or less incident clearance time on expressways through 2022
- Maintain travel time for freight moved on highways through 2022

#### 1.6 Performance Measurement

AAMPO is a federally-funded agency and regulated by federal laws. When federal infrastructure bills become acts and are financially obligated, the funding that flows from them comes with various requirements, tied to national infrastructure goals. Federal legislation, with the passage of MAP-21 (July 6, 2012), instituted performance-based programming and management to help achieve the most efficient and effective investment of transportation resources and provide greater accountability and transparency. The FAST Act (December 4, 2015) continued system performance management with the establishment of national goals for safety, infrastructure condition, congestion reduction, system reliability, freight movement and economic vitality, environmental sustainability, and reduced project delivery delays. Together, these laws help create a streamlined, performance-based, multimodal program to address challenges facing the transportation system. Additional or expanded performance measures may be included in the forthcoming IIJA regulations as more guidance is released.

Performance management strives to assist decision-makers to advance projects that provide a safe and reliable network based on need and quantitative measures. The approach uses current system information and data to make investment and policy decisions to achieve performance goals. AAMPO adopted performance measures, are safety, pavement and bridge condition, roadway system performance, and

transit asset management. Additional performance measures will be added as new IIJA guidance is provided. Current performance is established through traffic counts, crash data, and the region's Travel Demand Model. This information is used to predict and provide criteria for future project selection. The goal is to utilize metrics that provide for consistent criteria and accountability for project selection and funding awards in the future. To date, AAMPO has adopted performance measures associated with Safety (PM1), Bridge and Pavement Condition (PM2), Roadway System Performance (PM3), and Transit Asset Management (TAM). The table below represents the measures and targets for 2022.

| AAMPO ADOPTED PERFORMANCE MEASURES AND TARGETS 2022   | 2             |
|---|---------------|
| PM 1: Safety - Reviewed every year, based on 2% reduction of five-year average for roads (2022) | or all public |
| Traffic Related Fatalities  | 3,272         |
| Traffic Fatalities Rate per 100 million vehicle miles traveled (VMT)                            | 1.23          |
| Traffic Related Serious Injuries  | 19,065        |
| Traffic Related Serious Injuries per 100 million VMT  | 6.47          |
| Non-motorized Fatalities and Serious Injuries   | 2,642         |
| PM 2: Bridge and Pavement Condition — Reviewed every two years (2022)                           |               |
| Interstate Pavements - Good Condition   | 66.5%         |
| Interstate Pavements - Poor Condition   | 0.2%          |
| Non-interstate National Highway System (NHS) Pavements – Good Condition                         | 54.1%         |
| Non-interstate NHS Pavements — Poor Condition   | 14.2%         |
| NHS Bridges – Good Condition  | 50.4%         |
| NHS Bridges – Poor Condition  | 1.5%          |
| PM 3: Roadway System Performance – Reviewed every two years (2022)                              |               |
| Interstate Reliability*   | 65.0%         |
| Non-interstate NHS Roadways Reliability   | 45.0%         |
| Freight Truck Travel Time Reliability (TTTR) Index**  | 2.20%         |
| Transit Asset Management – Reviewed every year (2022)   |               |
| Equipment (% non-revenue vehicles that have either met or exceeded useful life benchmark)       |               |
| Automobiles   | 44%           |
| Trucks and Other Rubber Tire Vehicles   | 36%           |
| Rolling Stock (% revenue generating vehicles that have either met or exceeded useful life ben   | chmark )      |
| Articulated Bus   | 0%            |

| Bus  | 4%                  |  |  |  |  |
|--|---------------------|--|--|--|--|
| Paratransit Vans/Cutaways  | 0%                  |  |  |  |  |
| Passenger Rail Infrastructure  | N/A                 |  |  |  |  |
| Facilities (% rated below adequate condition on the Transit Economic Requirements Model (TER   | RM) analysis scale) |  |  |  |  |
| Administrative   | 0%                  |  |  |  |  |
| Maintenance  | 0%                  |  |  |  |  |
| Passenger/Parking  | 0%                  |  |  |  |  |
| *Reliability: the predictability and consistency in travel times regardless of congestion. Percent is based on person-miles traveled.  **TTTR Index: 95th percentile truck travel time/50th percentile truck travel time |                     |  |  |  |  |

#### 1.7 Environmental Concerns

Environmental issues in transportation planning continue to be a priority. Environmental issues are required to be considered in the transportation planning process in order to mitigate negative impacts to valued resources including wildlife, water sources, agricultural land and floodplains.

Air quality issues also play a major role in metropolitan transportation planning. In July 2018, Bexar County was designated non-attainment for ozone, effective September 2018. Being non-attainment, AAMPO is now required to demonstrate <u>transportation conformity</u>: ensuring that vehicles emissions from transportation projects will not adversely impact the county's air quality. Bexar County's air quality had to be improved to the EPA standard by September 2021 in order to avoid not be reclassified from marginal nonattainment to moderate nonattainment. Unfortunately, this goal was not met. The EPA is expected to formally reclassify Bexar County to moderate nonattainment by the end of 2022.

#### 1.8 Public Involvement

AAMPO believes in the proactive involvement of citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties in the development and updates of the MTP, the Transportation Improvement Program and significant transportation studies.

A proactive approach to an effective public involvement process requires several elements:

- Early, continuous, and meaningful public involvement;
- Reasonable public access to technical planning information;
- Collaborative input on transportation alternatives, evaluation criteria and mitigation needs;
- Transportation planning meetings that are open to the public; and
- Access to the planning and decision-making process.

The public has been involved in the planning process early, continuously, and in a meaningful way. Members of the public were provided reasonable technical information and collaboratively determined alternatives and solutions. AAMPO used innovative outreach techniques and social media to encourage participation in the plan development. This process made the public true partners in creating the metropolitan area's updated long-range transportation plan.

#### 1.9 Fiscal Constraint

The transportation system in the AAMPO study area requires maintenance and enhancement to meet the mobility needs of people and goods for the 25-year horizon of this plan. To meet the growing travel needs, it was necessary to identify reasonable and available federal, state, and local transportation funds, both public and private. Traditional transportation funds are available through a variety of sources, many of which contain restrictions on how they can be used and/or allocated. In addition, it is also necessary to estimate relevant expenses including capital for both maintenance and operation of the system.

Even with billions of dollars of investment in our region's transportation infrastructure, the fact remains that transportation needs far outweigh available funding resources, but as demand increases, it is essential to develop a fiscally constrained, prioritized and acceptable list of transportation improvement projects for the community. The Roadway Financial Projections and VIA Metropolitan Transit Financial Projections are provided below.

|  | ROADWAY FINANCIAL PROJECTIONS |  |    |               |    |               |                            |                                 |    |                         |    |               |
|--|-------------------------------|--|----|---------------|----|---------------|----------------------------|---------------------------------|----|-------------------------|----|---------------|
| TxDOT Funding Category                           |                               | FY 2023-2026 FY 2027-2050 Programmed (TIP) Planned (Mobility 2050) |    |               |    |               | FY 2032-2050<br>Projection | FY 2023-2050<br>Total Projected |    | Unprogrammed<br>Balance |    |               |
| 1 - Preventative Maintenance <sup>2</sup>        | \$                            | 12,000,000   | \$ | 5,000,000     | \$ | 1,003,700,797 | \$                         | 2,118,923,905                   | \$ | 3,122,624,702           | \$ | 3,105,624,702 |
| 2 - Metro and Urban Corridor                     | \$                            | 453,602,593  | \$ | _             | \$ | 859,304,220   | \$                         | 1,814,086,687                   | \$ | 2,673,390,907           | \$ | 2,219,788,314 |
| 3 - Local Contribution                           | \$                            | 95,598,731   | \$ | 72,000,000    | \$ | -             | \$                         | -                               | \$ | -                       | \$ | -             |
| 3 - Design-Build                                 | \$                            | 296,000,000  | \$ | -             | \$ | -             | \$                         | -                               | \$ | -                       | \$ | -             |
| 3 - Other Non-Traditional Funds                  | \$                            | -  |    |               | \$ | -             | \$                         | -                               | \$ | -                       | \$ | -             |
| 4 - Statewide Connectivity                       | \$                            | 150,800,000  | \$ | -             | \$ | 395,279,941   | \$                         | 834,479,875                     | \$ | 1,229,759,816           | \$ | 1,078,959,816 |

### 1.10 Project Lists

The funded and unfunded project lists reflect consultation with the public, implementing agencies and other affected stakeholders. AAMPO has undertaken an extensive amount of technical and financial analysis to arrive at the list of projects contained in this plan. The roadway and transit project lists meet FAST Act planning requirements of financial constraint with projected financial resources available over the next 25 years. The financially constrained revenue and expenditure summaries can be found in funding tables above and previously mentioned. Lump sum figures have been included in the project list to allow for some flexibility in safety, bicycle and pedestrian projects as well as roadway preservation over the next 25 years. The MTP and the project list can be revised, as necessary, to meet the changing needs of the community. It is important to note this financially constrained plan will not eliminate congestion. Levels of congestion are projected to continue to grow. The unfunded list allows sponsoring transportation planners to leverage this listing to advance planning and take advantage of grant opportunities and other planning resources. The links below provide the complete lists for review.

Metropolitan Transportation Plan 2050 Projects and Programs List

<u>Transportation Improvement Program FY 2023-2026 Projects and Programs List</u>

Unfunded Project List 2022

### 1.11 Mobility 2050 Plan Overview

The sections above describe the plan components. The table below describes the plan layout. The plan is divided into four major sections. Alamo Area Today section highlights current growth population and employment demographics, land use, the current transportation system with recent achievements, and Bexar County's air quality non-attainment mitigation status. The Future of Transportation section outlines near-term planning efforts, projected demand and planning strategies, long-range factors to consider in relation to growth and land use, emerging technologies, public involvement, equity, improved air quality, safety, security, and climate resiliency. The Funding Forecast chapter provides an overview of the fiscal constraints applied to proposed projects and programs and the various available funding sources. Lastly, the Projects and Programs Lists include roadway and transit projects and programs, funded and unfunded, for the MTP 2050 and the funded projects and programs for the 2023-2026 TIP. The unfunded list allows sponsoring transportation planners to leverage this listing to advance planning and take advantage of grant opportunities and other planning resources. ## Action on FY 2023-2026 Transportation Improvement Program (TIP) Purpose

The purpose of this agenda item is for the Transportation Policy Board to adopt the 2023-2026 Transportation Improvement Program (TIP). This is the second step of AAMPO's two step approval process for TIP adoption.

#### Issue

The roadway list matches TxDOT's FY 2022 Unified Transportation Program and moves projects that are in question of letting in FY 2022 to FY 2023. This draft is still subject to refinement prior to TPB action.

AAMPO's Technical Advisory Committee unanimously recommended adoption of the FY 2023-2026 Transportation Improvement Program at its meeting held on Friday, June 3, 2022.

The roadway and transit project lists are attached for review. To view the full draft plan, visit <a href="https://www.AlamoAreaMPO.org/YourMove">www.AlamoAreaMPO.org/YourMove</a>. A presentation on the program will be provided at the meeting.

## **Action Requested**

Motion to adopt the FY 2023-2026 Transportation Improvement Program.

#### **2023 Transportation Conformity Document**

#### **Purpose**

The purpose of this agenda item is for the Transportation Policy Board to take action on the Transportation Conformity Document for Bexar County. This is the second step of AAMPO's two step approval process for the Transportation Conformity Document.

#### Issue

On July 17, 2018, the U.S. Environmental Protection Agency (EPA) officially designated Bexar County as nonattainment for the 2015 ozone standard.

The 2023 Transportation Conformity Document was drafted in coordination with Texas Transportation Institute, TxDOT, and EPA. More information on conformity in the Alamo Area is available at http://www.alamoareampo.org/airquality/conformity/.

The 30-day public comment period began on Wednesday, May 18, 2022 and will close at end of the day Monday, June 20, 2022. The public meeting was held Wednesday, May 18, 2022, with a presentation at 6:00 p.m., at the VIA Metro Center, 1021 San Pedro, San Antonio, TX 78212. The draft document is posted on the AAMPO website at <a href="https://www.AlamoAreaMPO.org/YourMove">www.AlamoAreaMPO.org/YourMove</a> and virtual comments were accepted through the entirety of the public comment period. A presentation will be provided at the meeting.

AAMPO's Technical Advisory Committee unanimously recommended adoption of the 2023 Transportation Conformity Document at its meeting held on Friday, June 3, 2022.

Please note the resolution under this item that will be used to document approvals and adoptions of *Mobility 2050*, the FY 2023-2026 TIP and the 2023 Transportation Conformity Document.

#### **Action Requested**

Motion to adopt the 2023 Transportation Conformity Document and the resolution documenting action on the Metropolitan Transportation Plan, the FY 2023-2026 Transportation Improvement Program and the Transportation Conformity Document.

# Resolution Adopting *Mobility 2050*, the FY 2023-2026 Transportation Improvement Program, and the 2023 Transportation Conformity Determination for Bexar County

**WHEREAS**, pursuant to federal law, the Governor of the State of Texas designated the Alamo Area Metropolitan Planning Organization (AAMPO) as the Metropolitan Planning Organization for the San Antonio region; and

**WHEREAS**, AAMPO's Transportation Policy Board is the entity for cooperative decision making regarding regional transportation issues in Bexar, Comal, and Guadalupe Counties and a portion of Kendall County; and

**WHEREAS**, the Fixing America's Surface Transportation (FAST) Act assigns the MPO the responsibility for developing and maintaining the Metropolitan Transportation Plan (MTP) and Transportation Improvement Program (TIP) and their periodic updates; and

**WHEREAS**, the Metropolitan Transportation Plan (*Mobility 2050*) and the FY 2023-2026 Transportation Improvement Program (TIP) were developed using the most recent federal guidance and applicable regulations; and

**WHEREAS**, AAMPO is responsible for carrying out the transportation conformity process, in consultation with the State and local air quality planning agencies, State and local transportation agencies, the Environmental Protection Agency (EPA), and the U.S. Department of Transportation (USDOT); and

WHEARAS, the EPA has designated Bexar County as marginal nonattainment under the 2015 8-hour ozone National Ambient Air Quality Standard (NAAQS) effective September 24, 2018; and

**WHEREAS**, *Mobility 2055*, the FY 2023-2026 TIP and 2023 Transportation Conformity have been developed in compliance with the AAMPO's adopted Public Participation Plan; and

**WHEREAS**, *Mobility 2050*, the FY 2023-2026 TIP and the 2023 Transportation Conformity were recommended for adoption to the Transportation Policy Board by the Technical Advisory Committee.

**NOW, THEREFORE, BE IT RESOLVED** the Transportation Policy Board adopts *Mobility 2050*: the Metropolitan Transportation Plan for the Alamo Area and the FY 2023-2026 Transportation Improvement Program.

**BE IT FURTHER RESOLVED** the Transportation Policy Board approves the results of the 2023 Transportation Conformity, which demonstrates that implementation of *Mobility 2050* and the FY 2023-2026 TIP will not cause any new violations of the 2015 8-hour ozone NAAQS, increase the frequency or severity of violations of the standard or delay timely attainment of the standard.

PASSED AND APPROVED this 27th day of June 2027.

| Kevin Webb, Chair                             |  |

| Alamo Area Metropolitan Planning Organization |  |

#### 9. Monthly Status Reports

#### **Purpose**

The purpose of this agenda item is to provide information on several important issues.

#### Issue

Reports will be presented as follows:

- a. Alamo Regional Mobility Authority/Bexar County (Green)
- b. Air Quality Issues (Rath) see attached June 2022 Air Quality Planning Update
- c. City of San Antonio (Hosseini)
- d. San Antonio Mobility Coalition (Boyer)
- e. Texas Department of Transportation (Gallegos)
- f. VIA Metropolitan Transit (Arndt)
- g. Others

#### **Action Requested**

For information, discussion and action as necessary.

### **June 2022 Air Quality Planning Update**

#### **Summary of Updates**

- Bexar County moderate reclassification imminent
- TCEQ meeting revealed challenges to achieving 15% VOC reduction in 6 years;
   AACOG is planning another meeting for the Bexar County greater business community this summer
- PM NAAQS revision one step closer to summer announcement; 8.0-10.0 μg/m³ likely, putting region at risk of nonattainment
- Unusually clean start to 2022 ozone season with no days > 70 ppb through 18 Jun
- Draft NEVI Plan will be submitted by 1 Aug; AAMPO to receive \$18.5 million

#### **Regulatory Updates**

We are expecting the EPA to reclassify Bexar County to moderate nonattainment any day now, which means additional and stricter regulations for Bexar County industries and citizens that will result in:

- Increased vehicle inspection costs;
- Potential road construction delays; and
- Added consumer costs from industries having to control pollution.

One such regulation calls for a 15% reduction in VOC emissions within Bexar County. On June 9, the TCEQ hosted a meeting for Bexar County industry leaders to learn about this regulation and discuss strategies that could be implemented to achieve these reductions. AACOG is planning on hosting an additional meeting this summer for the broader business community, targeting Chambers of Commerce, trade organizations, and other air quality partners within Bexar County. More information will be made available as plans consolidate.

Last month the EPA released its revised policy assessment for reconsidering the particulate matter (PM) NAAQS, which incorporated the findings of the Clean Air Scientific Advisory Committee (CASAC) for PM. The CASAC unanimously concluded earlier this year that the current annual standard of 12.0  $\mu$ g/m³ does not adequately protect public health. Most of the panel supported a revised annual mean of 8-10  $\mu$ g/m³, with a minority proposing between 10-11  $\mu$ g/m³.

A revision of the PM standard to reflect the lower range of the majority opinion could put Bexar County at risk of nonattainment. The EPA intends to announce its final decision this summer.

#### 2022 Ozone Season

The 2022 ozone season began on March 1. One Bexar County monitor continues to show a violation of the 2015 ozone NAAQS: Camp Bullis CAMS 58 (Table 1). To attain the standard by the end of the 2022 ozone season, the fourth-highest MDA8 at San Antonio NW CAMS 23 must not exceed 73 ppb.

The EPA's Air Quality Index for ozone defines "moderate" days as those having a maximum daily average 8-hour ozone (MDA8) between 54 and 70 ppb, and "unhealthy for sensitive groups" days as those with MDA8 between 71 and 85 ppb. So far this year there have been 31 moderate ozone days, which is about average by this time of year. There have been no days so far this year that have been unhealthy for sensitive groups. The current four highest MDA8 values for 2022 are shown in Table 2.

Table 1: Fourth-Highest MDA8 and Preliminary Three-Year Averages at Bexar County Regulatory
Monitors, 2020-2022\*

| Monitor            | Fourth | Preliminary Three- |       |              |
|--------------------|--------|--------------------|-------|--------------|
| MOTITO             | 2020   | 2021               | 2022* | Year Average |
| San Antonio NW C23 | 69     | 70                 | 59    | 66           |
| Camp Bullis C58    | 74     | 78                 | 64    | 72           |
| Calaveras Lake C59 | 66     | 66                 | 55    | 62           |

<sup>\*</sup> As of 6/18/2022; Ozone data validated through February 2022

Table 2: Four Highest MDA8 at Bexar County Regulatory Monitors, 2022

| Monitor Site       | Date      | PPB | Date      | PPB | Date     | PPB | Date      | PPB |
|--------------------|-----------|-----|-----------|-----|----------|-----|-----------|-----|
| San Antonio NW C23 | 5/27/2022 | 65  | 5/26/2022 | 64  | 4/3/2022 | 64  | 3/26/2022 | 59  |
| Camp Bullis C58    | 5/26/2022 | 68  | 5/27/2022 | 67  | 4/3/2022 | 66  | 3/26/2022 | 64  |
| Calaveras Lake C59 | 3/25/2022 | 61  | 5/26/2022 | 60  | 3/1/2022 | 58  | 4/2/2022  | 55  |

<sup>\*</sup> As of 6/18/2022; Ozone data validated through February 2022

The Texas Commission on Environmental Quality (TCEQ) issues Ozone Action Day alerts when air quality is expected to be unhealthy for sensitive groups the following day. AACOG offers to forward these alerts to people who sign up to receive them at http://www.aacog.com/list.aspx. In addition, AACOG offers complimentary Ozone Action Day Alert flags for area schools to display when high ozone levels are predicted. Ozone Action Day alerts warn people, especially those sensitive to pollution (older people, children, and those with underlying respiratory conditions, like asthma), to limit their exposure outdoors. It is also an opportunity for the public to take measures to mitigate their contribution to pollution by reducing energy consumption at home and by driving

less. Ozone Action Day alert verification statistics for 2022 are listed in Table 3 and will be updated as they are issued, or on days when MDA8 exceeds 70 ppb and no alert is issued. So far in 2022 there have been four Ozone Action Day alerts issued, none of which verified.

| Date      | Alert? | Peak MDA8 | Verified? |
|-----------|--------|-----------|-----------|
| 3/25/2022 | Yes    | 64 ppb    | No        |
| 5/6/2022  | Yes    | 56 ppb    | No        |
| 5/26/2022 | Yes    | 70 ppb    | No        |
| 5/27/2022 | Yes    | 67 ppb    | No        |

Table 3: Ozone Action Day Statistics, 2022

Figure 1 shows the seasonal distribution of high ozone days at selected thresholds using data from 2010-2021. There are two clear peaks during the ozone season where the frequency of elevated ozone days increases sharply. The first of these peaks is in the spring, generally from April through June, and the second peak is in the fall, from August through October. These months have weather patterns that are most favorable for ozone formation. High ozone events in July are less common, a phenomenon known as the "mid-summer minimum," usually a result of persistent southeasterly winds from the Gulf of Mexico transporting relatively clean air into the region.

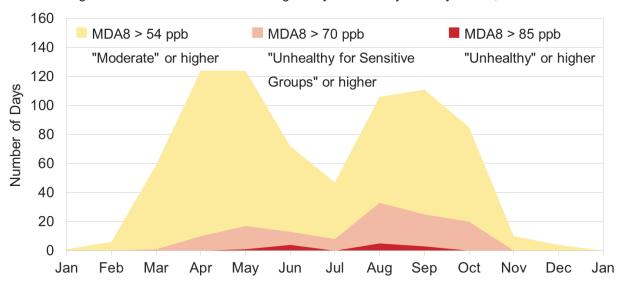

Figure 1: Ozone Exceedances at Regulatory Monitors by Monthly Period, 2010-2021

The design value trend from 2012 - 2021 at each regulatory monitor is shown in Figure 2. Although a downward trend was noted through 2016, design values have remained relatively steady since then.

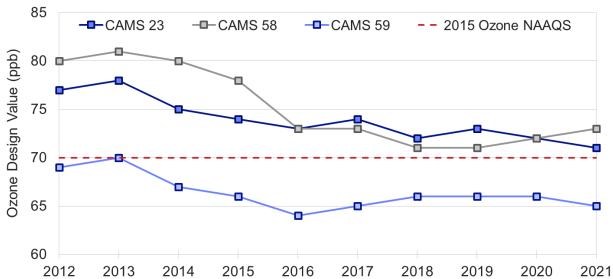

Figure 2: Design Value Trend at Bexar County Regulatory Monitors, 2012 - 2021

#### **NEVI Funding Update & Other Grants**

Last month, TxDOT released its draft plan for the implementation of National Electric Vehicle Infrastructure (NEVI) Formula Grant funding. Over \$407 million will be allocated to Texas to build out a network of EV chargers along designated EV corridors, and in rural and urban communities. The first year of the state NEVI program will focus on building out designated EV corridors along non-business interstate highways in Texas. Years two through five will expand the focus into urban and rural areas not along designated EV corridors.

In areas served by an MPO not along EV corridors, TxDOT will work with the MPO to propose station types and general locations, draft solicitations, score responses; and the MPO will group NEVI projects into the TIP, updating as necessary. TxDOT is proposing allocating \$14,784,236 to AAMPO for EV charger installation and \$3,696,059 for 5 years of operation and maintenance at select charging locations to support community charging infrastructure development. Contracted vendors will be responsible for siting, permitting, clearances, installation, and operation of equipment. TxDOT must submit its final NEVI plan to FHWA no later than August 1. Initial solicitations for EV charging stations are expected to begin October 1, with awards beginning January 1, 2023.

Table 4 is a list of active state and Federal grants for mobile source vehicle replacements. State grants may be part of the Texas Emission Reduction Plan (TERP) program or the Texas Volkswagen Emissions Mitigation Program (TxVEMP), both administered by the TCEQ.

Table 4: List of Active Grants for On-Road Mobile Source Replacement

| Program  | Description  | Deadline   |
|--|--|------------|
| TERP: Light-Duty Vehicle<br>Purchase and Lease<br>Incentive Program (LDPLIP) | Statewide; first-come, first-served (FCFS); \$2,500 for electric, \$5,000 for natural gas (CNG, LNG, LPG); eligible makes/models listed on terpgrants.org    | 1/7/2023   |
| TERP: Seaport and Rail<br>Yard Emissions Reduction<br>Program (SPRY)         | Drayage and cargo handling equipment operating at UP Intermodal in Von Ormy; FCFS; amounts vary based on vehicle type, fuel, specs, usage, and emission rate | 11/22/2022 |
| TERP: Texas Clean School<br>Bus Program (TCSB)                               | Statewide; FCFS; up to 80% for replacements based on fuel, year, and type of bus; older and electric will receive the most; 100% for retrofits               | 10/20/2022 |
| TERP: Alternative Fueling Facilities Program (AFFP)                          | Competitive; CTZ only; Up to \$600k for electric and combined CNG/LNG; prioritize public; must include site plan   | 7/12/2022  |
| EPA: Clean School Bus<br>Program   | Prioritizes low income & rural; EV, CNG, & LPG; MY 2010 or older, exceptions for EV; > 3 days/week and 10,001 GVWR; up to \$375,000 rebate                   | 8/19/2022  |

#### San Antonio - New Braunfels MSA Ozone Status

In October 2015, the U.S. Environmental Protection Agency (EPA) promulgated its revised National Ambient Air Quality Standards (NAAQS) for ground-level ozone. The annual fourth-highest MDA8 ozone concentration, averaged over three years, measured at each regulatory monitor within an area must not exceed 70 parts per billion (ppb). The highest of these three-year averages is that area's design value, which is the metric used by the EPA to determine attainment of the ozone NAAQS. Failure to attain results in a nonattainment designation, with five classification levels of increasing severity based on an area's design value or length of time out of attainment. Each subsequent classification results in additional and more stringent federal air quality regulations intended to bring the area back into attainment.

Bexar County is currently designated nonattainment with a marginal classification under the 2015 ozone NAAQS. This designation became effective on September 24, 2018, which triggered a three-year deadline to attain the NAAQS by September 24, 2021 (attainment date), or effectively, the end of the 2020 ozone season (attainment year). Bexar County missed its attainment date based on having a 2020 design value of 72 ppb, and now faces reclassification to moderate nonattainment, which was formally proposed on April 13.

#### **NSR Thresholds and Offset Ratios**

100 TPY 1.1 : 1 100 TPY 1.15 : 1 50 TPY 1.2 : 1

Failure to meet the ozone NAAQS by the attainment date triggered another three-year deadline of September 24, 2024, making the new attainment year 2023. This means that 2021 ozone data will be used to calculate the design value that will be used to determine attainment. Failure to attain by this new deadline will result in another reclassification to serious nonattainment. The federal regulations required to be implemented in marginal, moderate, and serious nonattainment areas are shown in Figure 3. The remaining seven counties of the San Antonio-New Braunfels MSA continue to be designated "Attainment/Unclassifiable."

The 2021 ozone season ended with two regulatory monitors in Bexar County continuing to show violations of the NAAQS through 2021: CAMS 23 San Antonio NW at Marshall High School and CAMS 58 Camp Bullis (Table 5).

Table 5: Four Highest MDA8 at Bexar County Regulatory Monitors, 2021

| Monitor            | Fourth | Preliminary Three- |    |              |
|--------------------|--------|--------------------|----|--------------|

### 10. Executive Session - Pursuant to Chapter 551, Subchapter D, Texas Government Code

At any time during the meeting of the AAMPO Transportation Policy Board, the Board reserves the right to adjourn into executive Session at any time to discuss any of the matters listed on the posted agenda, as authorized by Texas Government Code Section 551.071 (consultation with attorney), Section 551.072 (deliberations about real property), Section 551.074 (personnel matters), and Section 551.086 (economic development).

#### 11. Adjourn
